STATEMENT OF ADDITIONAL INFORMATION

Dated March 17, 2023

This Statement of Additional Information (“SAI”) is not a prospectus. It should be read in conjunction with the current prospectus for the Fund dated March 17, 2023 as it may be supplemented or revised from time to time. This SAI is incorporated by reference into the Fund’s prospectus. You can obtain a free copy of the annual and semi-annual reports (once available), prospectus and SAI by writing to Kingsbarn Dividend Opportunity ETF, 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235, by calling the Fund toll free at (866) 788-7878, or by e-mail at: mail@ccofva.com. The Fund’s annual and semi-annual reports (once available), prospectus and SAI are all available for viewing/downloading at www.kingsbarncapital.com. General inquiries regarding the Fund may also be directed to the above address or telephone number.

THE TRUST

General. This SAI relates to Kingsbarn Dividend Opportunity ETF (the “Fund”) and should be read in conjunction with the prospectus of the Fund. This SAI is incorporated by reference into the Fund’s prospectus. No investment in shares should be made without reading the prospectus. The Fund is a series of ETF Opportunities Trust, a Delaware statutory trust (the “Trust”). The Trust is registered as an open-end management investment company. The Trust is governed by its Board of Trustees (the “Board” or “Trustees”). The investment adviser to the Fund is Kingsbarn Capital Management, LLC (the “Adviser”) and the sub-adviser to the Fund is Vident Investment Advisory, LLC (the “Sub-Adviser”).

The Fund may issue an unlimited number of shares of beneficial interest (“Shares”). All Shares have equal rights and privileges. Each Share is entitled to one vote on all matters as to which Shares are entitled to vote. In addition, each Share is entitled to participate equally with other Shares (i) in dividends and distributions declared by the Fund and (ii) on liquidation to its proportionate share of the assets remaining after satisfaction of outstanding liabilities. Shares are fully paid, non-assessable and fully transferable when issued and have no pre-emptive, conversion or exchange rights. Fractional Shares have proportionately the same rights, including voting rights, as are provided for a full Share.

The Fund will issue and redeem Shares at net asset value (“NAV”) in aggregations of at least 25,000 Shares (each a “Creation Unit”). The Fund will issue and redeem Creation Units principally for cash. The Fund reserves the right to offer creations and redemptions of Shares in exchange for a basket of securities (the “Deposit Securities”), together with the deposit of a specified cash payment (the “Cash Component”), plus a transaction fee. The Fund is listed on a national securities exchange (the “Exchange”) as set forth below.

Fund	Ticker	Principal U.S. Listing Exchange
Kingsbarn Dividend Opportunity ETF	DVDN	NYSE Arca

Shares will trade on the Exchange at market prices that may be below, at, or above NAV. In the event of the liquidation of the Fund, a share split, reverse split or the like, the Trust may revise the number of Shares in a Creation Unit.

Shares may be issued in advance of receipt of Deposit Securities subject to various conditions as described herein - see the section titled “Placement of Creation Orders Outside the Clearing Process” of this SAI. In each instance of such cash creations or redemptions, transaction fees may be imposed and may be higher than the transaction fees associated with in-kind creations or redemptions. See “Additional Information About Purchases and Sales” below.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVES AND POLICIES

The Fund’s investment objective and principal investment strategies are described in the prospectus. The Fund is a “non-diversified” series as that term is defined in the Investment Company Act of 1940 (the “1940 Act”). The following information supplements, and should be read in conjunction with, the prospectus. For a description of certain permitted investments discussed below, see “Description of Permitted Investments” in this SAI.

Portfolio Turnover. Average annual portfolio turnover rate is the ratio of the lesser of sales or purchases to the monthly average value of the portfolio securities owned during the year, excluding from both the numerator and the denominator all securities with maturities at the time of acquisition of one year or less. A higher portfolio turnover rate involves greater transaction expenses to the Fund and may result in the realization of net capital gains, which would be taxable to shareholders when distributed. The Fund is new so no portfolio turnover rate is available at this time.

DESCRIPTION OF PERMITTED INVESTMENTS

The following discussion of investment techniques and instruments supplements, and should be read in conjunction with, the investment information in the Fund's prospectus. It discusses some of the investments the Fund may make and some of the techniques it may use. In seeking to meet its investment objective, the Fund may invest in any type of security whose characteristics are consistent with its investment programs. To the extent particular investment techniques or instruments are not described in the Principal Investment Strategies disclosure of the Fund's prospectus, such investment techniques and instruments are not a part of the principal strategies and the corresponding risks are not principal risks of the Fund. Certain of the descriptions of the investments or techniques set forth below reflect investments and techniques that are occurring indirectly through investments in issuers in which the Fund invests.

Real Estate Investment Trusts ("REITs"). The Fund invests in mortgage REITs as part of its investment strategy. Mortgage REITs are pooled investment vehicles that own residential or commercial mortgage loans or securities. Mortgage REITs generally do not own residential or commercial properties. If a REIT meets certain requirements, including distributing to shareholders substantially all of its taxable income (other than net capital gains), then it is not generally taxed on the income distributed to shareholders. REITs are subject to management fees and other expenses, and so the Fund would bear its proportionate share of the costs of the REITs' operations if it invests in REITs. Dividends received by the Fund from a REIT generally will not constitute qualified dividend income. REITs may not provide complete tax information to the Fund until after the calendar year-end. Consequently, because of the delay, it may be necessary for the Fund to request permission from the Internal Revenue Service ("IRS") to extend the deadline for issuance of Forms 1099-DIV.

Along with the risks common to different types of mortgage- or real estate-related securities, REITs involve additional risk factors. These include poor performance by the REIT's manager, changes to the tax laws, and failure by the REIT to qualify for favorable tax treatment or exemption under the 1940 Act. Furthermore, REITs are not typically diversified and are heavily dependent on cash flow. Investments in REIT equity securities could require the Fund to accrue and distribute income not yet received by the Fund. On the other hand, investments in REIT equity securities can also result in the Fund's receipt of cash in excess of the REIT's earnings; if the Fund distributes such amounts, such distribution could constitute a return of capital to Fund shareholders for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"). In addition, some REITs have limited diversification because they invest in a limited number of properties, a narrow geographic area, or a single type of property. Also, the organizational documents of a REIT may contain provisions that make changes in control of the REIT difficult and time-consuming.

Business Development Companies ("BDCs"). The Fund may invest in BDCs, which typically operate to invest in, or lend capital to, early stage-to-mature private companies as well as small public companies. BDCs are regulated under the 1940 Act and are generally taxed as regulated investment companies under the Internal Revenue Code. BDCs realize operating income when their investments are sold off or as income is received in connection with lending, and therefore maintain complex organizational, operational, tax and compliance requirements. For tax purposes, BDCs generally intend to qualify for taxation as regulated investment companies. To so qualify, BDCs must

satisfy certain asset diversification and source of income tests and must generally distribute at least 90% of their taxable earnings as dividends. Under the 1940 Act, BDCs are also required to invest at least 70% of their total assets primarily in securities of private companies or thinly traded U.S. public companies, cash, cash equivalents, U.S. government securities and high quality debt investments that mature in one year or less. Generally, little public information exists for private and thinly traded companies in which a BDC may invest, and therefore there is a risk that investors may not be able to make a fully informed decision. In addition, investments made by BDCs are typically illiquid and may be difficult to value. A BDC may only incur indebtedness in amounts such that the BDC's asset coverage, subject to certain conditions, equals at least 150% after such incurrence. These limitations on asset mix and leverage may prohibit the way that the BDC raises capital.

Equity Securities. Equity securities include common stocks, preferred stocks, convertible preferred stocks, convertible debentures, American Depositary Receipts, rights and warrants. Convertible preferred stock is preferred stock that can be converted into common stock pursuant to its terms. Convertible debentures are debt instruments that can be converted into common stock pursuant to their terms. Warrants are options to purchase equity securities at a specified price valid for a specific time period. Rights are similar to warrants, but normally have shorter durations.

Common Stocks. Common stocks represent units of ownership in a company. Common stocks usually carry voting rights and earn dividends. Unlike preferred stocks, which are described below, dividends on common stocks are not fixed but are declared at the discretion of the company's board of directors.

Risks of Investing in Stocks. Stocks fluctuate in price, and their short-term volatility at times may be great. To the extent that the Fund invests in equity securities, the value of the Fund's portfolio will be affected by changes in the stock markets. Market risk can affect the Fund's NAV per share, which will fluctuate as the values of the Fund's portfolio securities change. The prices of individual stocks do not all move in the same direction uniformly or at the same time. Different stock markets may behave differently from each other.

Other factors can negatively affect a particular stock's price, such as poor earnings reports by the issuer, loss of major customers, major litigation against the issuer, or changes in government regulations affecting the issuer or its industry. The Fund can invest in securities of large companies and mid-cap companies, but may also buy stocks of small companies, which may have more volatile stock prices than large companies.

Large Capitalization Stocks. Investments in large capitalization securities as a group could fall out of favor with the market, causing the Fund to underperform investments that focus on small- or medium-capitalization securities. Larger, more established companies may be slow to respond to challenges and may grow more slowly than smaller companies.

Small and Mid Capitalization Stocks. The value of small and mid capitalization company stocks or ETFs that invest in stocks of small or mid capitalization companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Debt Securities. The Fund may invest in a variety of debt securities to seek its objectives. In general, debt securities may be subject to the risks described below.

- ***Interest Rate Risk.*** Interest rate risk refers to the fluctuations in value of a debt security resulting from the relationship between price and yield. An increase in general interest rates will tend to reduce the market value of already-issued debt securities and a decline in general interest rates will

tend to increase their value. Debt securities with longer maturities are usually subject to greater fluctuations in value from interest rate changes than obligations having shorter maturities. Variable rate debt securities pay interest based on an interest rate benchmark. When the benchmark rate changes, the interest payments on those securities may be reset at a higher or lower rate. Except for investments in variable rate debt securities, fluctuations in general interest rates do not affect the amount of interest income received. Fluctuations in the market valuations of debt securities may, however, affect the value of Fund assets. “Zero-coupon” or “stripped” securities may be particularly sensitive to interest rate changes. Risks associated with rising interest rates are heightened given that interest rates in the U.S. are near historic lows.

- **Duration Risk.** Duration is a measure of the price sensitivity of a debt security or portfolio to interest rate changes. Duration risk is the risk that longer-duration debt securities are more volatile and thus more likely to decline in price, and to a greater extent, than shorter-duration debt securities, in a rising interest-rate environment. “Effective duration” attempts to measure the expected percentage change in the value of a bond or portfolio resulting from a change in prevailing interest rates. The change in the value of a bond or portfolio can be approximated by multiplying its duration by a change in interest rates. For example, if a bond has an effective duration of three years, a 1% increase in general interest rates would be expected to cause the bond’s value to decline about 3% while a 1% decrease in general interest rates would be expected to cause the bond’s value to increase 3%. The duration of a debt security may be equal to or shorter than the full maturity of a debt security.
- **Credit Risk.** Credit risk relates to the ability of the issuer to meet interest or principal payments or both as they become due. In general, below-investment-grade, higher-yield bonds are subject to credit risk to a greater extent than lower-yield, investment-grade bonds. In making investments in debt securities, the Fund’s investment adviser may rely to some extent on the ratings of national statistical rating organizations or it may use its own research to evaluate a security’s credit-worthiness. If securities purchased are unrated, they may be assigned a rating by the Fund’s investment adviser in categories similar to those of a national statistical rating organization. There are no investment policies establishing specific maturity ranges for investments, and they may be within any maturity range (short, medium or long) depending on the Fund’s investment adviser’s evaluation of investment opportunities available within the debt securities markets.
- **Credit Spread Risk.** Credit spread risk is the risk that credit spreads (i.e., the difference in yield between securities that is due to differences in their credit quality) may increase when the market expects below-investment-grade bonds to default more frequently. Widening credit spreads may quickly reduce the market values of below-investment-grade and unrated securities. Some unrated securities may not have an active trading market or may trade less actively than rated securities, which means that it might be difficult to sell them promptly at an acceptable price.
- **Extension Risk.** Extension risk is the risk that, if interest rates rise rapidly, prepayments on certain debt securities may occur at a slower rate than expected, and the expected maturity of those securities could lengthen as a result. Securities that are subject to extension risk generally have a greater potential for loss when prevailing interest rates rise, which could cause their values to fall sharply. Extension risk is particularly prevalent for a callable security where an increase in interest rates could result in the issuer of that security choosing not to redeem the security as anticipated on the security’s call date. Such a decision by the issuer could have the effect of lengthening the debt security’s expected maturity, making it more vulnerable to interest rate risk and reducing its market value.
- **Reinvestment Risk.** Reinvestment risk is the risk that when interest rates fall, it may be necessary to reinvest the proceeds from a security’s sale or redemption at a lower interest rate. Callable bonds are generally subject to greater reinvestment risk than non-callable bonds.
- **Prepayment Risk.** Certain fixed-income securities (in particular mortgage-related securities) are subject to the risk of unanticipated prepayment. Prepayment risk is the risk that, when interest rates fall, the issuer will redeem the security prior to the security’s expected maturity, or that borrowers will repay the loans that underlie these fixed-income securities more quickly than expected, thereby

causing the issuer of the security to repay the principal prior to expected maturity. It may be necessary to reinvest the proceeds at a lower interest rate, reducing income. Securities subject to prepayment risk generally offer less potential for gains when prevailing interest rates fall. If these securities are purchased at a premium, accelerated prepayments on those securities could cause losses on a portion of the principal investment. The impact of prepayments on the price of a security may be difficult to predict and may increase the security's price volatility. Interest-only and principal-only securities are especially sensitive to interest rate changes, which can affect not only their prices but can also change the income flows and repayment assumptions about those investments.

- **Event Risk.** If an issuer of debt securities is the subject of a buyout, debt restructuring, merger or recapitalization that increases its debt load, it could interfere with its ability to make timely payments of interest and principal and cause the value of its debt securities to fall.

Fixed-Income Market Risks. The fixed-income securities market can be susceptible to unusual volatility and illiquidity. Volatility and illiquidity may be more pronounced in the case of lower-rated and unrated securities. Liquidity can decline unpredictably in response to overall economic conditions or credit tightening. Increases in volatility and decreases in liquidity may be caused by a rise in interest rates (or the expectation of a rise in interest rates), which are near historic lows in the U.S. and in other countries. During times of reduced market liquidity, the Fund may not be able to readily sell bonds at the prices at which they are carried on the Fund's books. If the Fund needed to sell large blocks of bonds to meet shareholder redemption requests or to raise cash, those sales could further reduce the bonds' prices. An unexpected increase in Fund redemption requests (including requests from shareholders who may own a significant percentage of the Fund's shares), which may be triggered by market turmoil or an increase in interest rates, as well as other adverse market and economic developments, could cause the Fund to sell its holdings at a loss or at undesirable prices and adversely affect the Fund's share price and increase the Fund's liquidity risk, Fund expenses and/or taxable capital gain distributions to shareholders, if applicable. Similarly, the prices of the Fund's holdings could be adversely affected if an investment account managed similarly to such Fund was to experience significant redemptions and that account were required to sell its holdings at an inopportune time. The liquidity of an issuer's securities may decrease as a result of a decline in an issuer's credit rating, the occurrence of an event that causes counterparties to avoid transacting with the issuer, or an increase in the issuer's cash outflows, as well as other adverse market and economic developments. A lack of liquidity or other adverse credit market conditions may hamper the Fund's ability to sell the debt securities in which it invests or to find and purchase suitable debt instruments.

Economic and other market developments can adversely affect fixed-income securities markets in the United States, Europe and elsewhere. At times, participants in debt securities markets may develop concerns about the ability of certain issuers of debt securities to make timely principal and interest payments, or they may develop concerns about the ability of financial institutions that make markets in certain debt securities to facilitate an orderly market. Those concerns may impact the market price or value of those debt securities and may cause increased volatility in those debt securities or debt securities markets. Under some circumstances, those concerns may cause reduced liquidity in certain debt securities markets, reducing the willingness of some lenders to extend credit, and making it more difficult for borrowers to obtain financing on attractive terms (or at all).

Following the financial crisis, the Federal Reserve sought to stabilize the economy by keeping the federal funds rate near zero percent. The Federal Reserve has also purchased large quantities of securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, pursuant to its monetary stimulus program known as "quantitative easing." There remains the risk that interest rates may rise and cause fixed-income investors to move out of fixed-income securities, which may also increase redemptions in fixed-income mutual funds.

In addition, although the fixed-income securities markets have grown significantly in the last

few decades, regulations and business practices have led some financial intermediaries to curtail their capacity to engage in trading (i.e., “market making”) activities for certain debt securities. As a result, dealer inventories of fixed-income securities, which provide an indication of the ability of financial intermediaries to make markets in fixed-income securities, are near historic lows relative to market size. Because market makers help stabilize the market through their financial intermediary services, further reductions in dealer inventories could have the potential to decrease liquidity and increase volatility in the fixed-income securities markets.

Duration of the Fund’s Portfolio. The Fund can invest in debt securities of any maturity or duration. Duration is a measure of the expected life of a security on a current-value basis expressed in years, using calculations that consider the security’s yield, coupon interest payments, final maturity and call features. While a debt security’s maturity can be used to measure the sensitivity of the security’s price to changes in interest rates, the term to maturity of a security does not take into account the pattern (or expected pattern) of the security’s payments of interest or principal prior to maturity. Duration, on the other hand, measures the length of the time interval from the present to the time when the interest and principal payments are scheduled to be received (or, in the case of a mortgage-related security, when the interest and principal payments are expected to be received). Duration calculations weigh the present value of each such payment by the time in years until such payment is expected to be received. If the interest payments on a debt security occur prior to the repayment of principal, the duration of the security is less than its stated maturity. For zero-coupon securities, duration and term to maturity are equal.

Absent other factors, the lower the stated or coupon rate of interest on a debt security or the longer the maturity or the lower the yield-to-maturity of the debt security, the longer the duration of the security. Conversely, the higher the stated or coupon rate of interest, the shorter the maturity or the higher the yield-to-maturity of a debt security, the shorter the duration of the security.

In some cases, the standard effective duration calculation does not properly reflect the interest rate exposure of a security. For example, floating and variable rate securities often have final maturities of ten or more years. However, their exposure to interest rate changes corresponds to the frequency of the times at which their interest coupon rate is reset. In the case of mortgage pass-through securities, the stated final maturity of the security is typically 30 years, but current rates of prepayments are more important to determine the security’s interest rate exposure. In these and other similar situations, the Adviser will use other analytical techniques that consider the economic life of the security as well as relevant macroeconomic factors (such as historical prepayment rates) in determining the Fund’s effective duration.

U.S. Government Securities. Securities issued by the U.S. Treasury are backed by the full faith and credit of the U.S. government and are subject to relatively little credit risk. Obligations of U.S. government agencies or instrumentalities (including certain mortgage-backed securities) may be guaranteed or supported by the “full faith and credit” of the United States or may be backed by the right of the issuer to borrow from the U.S. Treasury or by the discretionary authority of the U.S. government to purchase the agencies’ or instrumentalities’ obligations. Others are supported only by the credit of the agency or instrumentality. “Full faith and credit” means that the taxing power of the U.S. government is pledged to the payment of interest and repayment of principal on a security. If a security is not backed by the full faith and credit of the United States, the owner of the security must look principally to the agency or instrumentality issuing the obligation for repayment.

U.S. Treasury Obligations. These securities are directly issued by the U.S. Treasury. They include Treasury bills (which have maturities of one year or less when issued), Treasury notes (which have maturities of more than one year and up to ten years when issued), Treasury bonds (which have maturities of more than ten years when issued), and Treasury Inflation-Protection Securities (TIPS).

Other U.S. Treasury obligations include U.S. Treasury securities that have been “stripped” by a Federal Reserve Bank and zero-coupon U.S. Treasury securities. Treasury securities are backed by the full faith and credit of the United States as to timely payments of interest and repayments of principal. While U.S. Treasury securities have relatively little credit risk, they are subject to price fluctuations from changes in interest rates.

Mortgage-Related U.S. Government Securities. A variety of mortgage-related securities are issued by U.S. government agencies or instrumentalities. Like other mortgage-related securities, they may be issued in different series with different interest rates and maturities. The collateral for these securities may be either in the form of mortgage pass-through certificates issued or guaranteed by a U.S. government agency or instrumentality or mortgage loans insured by a U.S. government agency.

Some mortgage-related securities issued by U.S. government agencies, such as Government National Mortgage Association pass-through mortgage obligations (“Ginnie Maes”), are backed by the full faith and credit of the U.S. government. Others are supported only by the credit of the entity that issued them (for example obligations issued by the Federal Home Loan Banks, “Fannie Mae” bonds issued by the Federal National Mortgage Association and “Freddie Mac” obligations issued by the Federal Home Loan Mortgage Corporation).

Mortgage-Related Debt Securities. Mortgage-related securities are a form of fixed-income investment collateralized by pools of commercial or residential mortgages. Pools of mortgage loans are assembled as securities for sale to investors by government agencies or entities or by private issuers. These securities include collateralized mortgage obligations, mortgage pass-through securities, stripped mortgage pass-through securities, interests in real estate mortgage investment conduits (“REMICs”) and other real estate-related securities.

Mortgage-related securities that are issued or guaranteed by agencies or instrumentalities of the U.S. government may have relatively little credit risk (depending on the nature of the issuer) but are subject to interest rate risks and prepayment risks.

As with other debt securities, the prices of mortgage-related securities tend to move inversely to changes in interest rates. Some mortgage-related securities have interest rates that move in the opposite direction from changes in general interest rates, based on changes in a specific interest rate index. The changes in those interest rates may also occur at a multiple of the changes in the index. Although the value of a mortgage-related security may decline when interest rates rise, the opposite is not always the case. In addition, the values of mortgage-related debt securities may be affected by changes in the market’s perception of the creditworthiness of the entity issuing the securities or guaranteeing them and by changes in government regulations and tax policies.

Stripped securities can also be created for mortgage-related pass-through certificates or CMOs. Securities may be partially stripped so that each class receives some interest and some principal or they may be completely stripped. In that case all of the interest is distributed to holders of one type of security, known as an “interest-only” security, or “I/O,” and all of the principal is distributed to holders of another type of security, known as a “principal-only” security or “P/O.” The yields to maturity of mortgage-related I/Os and P/Os are very sensitive to principal repayments (including prepayments) on the underlying mortgages. If the underlying mortgages experience greater than anticipated prepayments of principal, the Fund might not fully recoup its investment in an I/O based on those assets. If underlying mortgages experience less than anticipated prepayments of principal, the yield on a P/O based on them could decline substantially.

Mortgage Prepayment and Extension Risks. In periods of declining interest rates, mortgages are more likely to be prepaid and a mortgage-related security’s maturity may be shortened by unscheduled prepayments on the underlying mortgages. If principal is returned earlier than expected,

that money may have to be reinvested in other investments having a lower yield than the prepaid security. Because of these risks, mortgage-related securities may be less effective as a means of “locking in” attractive long-term interest rates and they may have less potential for appreciation during periods of declining interest rates than conventional bonds.

Prepayment risks can lead to substantial fluctuations in the value of a mortgage-related security. If a mortgage-related security has been purchased at a premium, all or part of the premium may be lost if there is a decline in the market value of the security as a result of interest rate changes or prepayments on the underlying mortgages. In the case of stripped mortgage-related securities, if they experience greater rates of prepayment than were anticipated, the Fund may fail to recover its initial investment on the security.

During periods of rapidly rising interest rates, prepayments of mortgage-related securities may occur at slower than expected rates. Slower prepayments may effectively lengthen a mortgage-related security’s expected maturity. Generally, that would cause the value of the security to fluctuate more widely in response to changes in interest rates. If the prepayments on mortgage-related securities were to decrease broadly, the Fund’s effective duration and therefore its sensitivity to interest rates, would increase.

Privately-Issued Commercial Mortgage-Related Securities. Commercial mortgage-related securities issued by private entities are generally multi-class debt or pass-through certificates secured by mortgage loans on commercial properties. They are subject to the credit risks of the issuer and of the underlying loans. These securities typically are structured to provide protection to investors in senior classes by having holders of subordinated classes take the first loss if there are defaults on the underlying loans. They may also be protected to some extent by guarantees, reserve funds or additional collateralization mechanisms.

Preferred Stock. Preferred stock is a class of capital stock that pays dividends at a specified rate and that has preference over common stock in the payment of dividends and the liquidation of assets. Preferred stock does not ordinarily carry voting rights. Most preferred stock is cumulative; if dividends are passed (not paid for any reason), they accumulate and must be paid before common dividends. A passed dividend on non-cumulative preferred stock is generally extinguished. Participating preferred stock entitles its holders to share in profits above and beyond the declared dividend, along with common shareholders, as distinguished from non-participating preferred, which is limited to the stipulated dividend. Adjustable rate preferred stock pays a dividend that is adjustable, usually quarterly, based on changes in the Treasury bill rate or other money market rates.

Investment Company Securities. The Fund may invest in other investment companies, which includes BDCs, to the extent permitted by the 1940 Act, SEC rules thereunder and exemptions thereto. With respect to funds in which the Fund may invest, Section 12(d)(1)(A) of the 1940 Act requires that, as determined immediately after a purchase is made, (i) not more than 3% of the outstanding voting stock of any one investment company will be owned by the Fund, (ii) not more than 5% of the value of the Fund’s total assets will be invested in the securities of any one investment company, and (iii) not more than 10% of the value of the Fund’s total assets will be invested in securities of investment companies as a group. The Fund will limit its investments in funds in accordance with the Section 12(d)(1)(A) limitations set forth above, except to the extent that any rules, regulations or no-action or exemptive relief under the 1940 Act permits the Fund’s investments to exceed such limits. For example, Rule 12d1-4 permits the Fund to invest in other investment companies beyond the statutory limits, subject to certain conditions. Among other conditions, the Rule prohibits a fund from acquiring control of another investment company (other than an investment company in the same group of investment companies), including by acquiring more than 25% of its voting securities. In addition, the Rule imposes certain voting requirements when a fund’s ownership of another investment company exceeds particular thresholds. If shares of a fund are acquired by another investment company, the “acquired”

fund may not purchase or otherwise acquire the securities of an investment company or private fund if immediately after such purchase or acquisition, the securities of investment companies and private funds owned by that acquired fund have an aggregate value in excess of 10% of the value of the total assets of the fund, subject to certain exceptions. These restrictions may limit the Fund's ability to invest in other investment companies to the extent desired. In addition, other unaffiliated investment companies may impose other investment limitations or redemption restrictions which may also limit the Fund's flexibility with respect to making investments in those unaffiliated investment companies. To the extent that the Fund invests in another investment company, because other investment companies pay advisory, administrative and service fees that are borne indirectly by investors, such as the Fund, there may be duplication of investment management and other fees.

Illiquid and Restricted Securities. The Fund may not invest more than 15% of the value of its net assets in securities that may be considered illiquid, by virtue of the absence of a readily available market, legal or contractual restrictions on resale, or other factors limiting the marketability of the security. Generally, an illiquid security is any security that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the security. The Adviser will monitor the amount of illiquid securities in the Fund's portfolio, under the supervision of the Board of Trustees of the Trust (the "Board"), to ensure compliance with this investment restriction. The Fund has a liquidity risk management program designed to assess and manage the Fund's liquidity risk. The program has been approved by the Board, which has also approved the appointment of a liquidity program administrator (the "LPA"). The LPA is responsible for oversight of the Fund's liquidity risk management efforts, including classifying the liquidity of each Fund investment, ensuring the Fund holds no more than 15% of its net assets in illiquid investments, ensuring that the Fund holds enough liquid assets to meet reasonably foreseeable redemption requests, and reporting to the Board regarding the effectiveness and operation of the liquidity risk management program.

Borrowing. Although the Fund does not intend do so, the Fund may borrow money to the extent permitted under the 1940 Act and other applicable law. In the event that the Fund ever borrows money under these conditions, such borrowings could increase the Fund's costs and thus reduce the value of the Fund's assets and returns to shareholders.

Lending of Portfolio Securities. By lending its portfolio securities, the Fund would attempt to increase its income by receiving a fixed fee or a percentage of the collateral, in addition to continuing to receive the interest or dividends on the securities loaned. The terms, structure and the aggregate amount of such loans would be consistent with the 1940 Act. The borrower would be required to secure any such loan with collateral in cash or cash equivalents maintained on a current basis in an amount at least equal to the total market value and accrued interest of the securities loaned by the Fund.

If the borrower defaults on its obligation to return the securities lent because of insolvency or other reasons, the Fund could experience delays and costs in recovering the securities lent or in gaining access to the collateral. These delays and costs could be greater for foreign securities. If the Fund is not able to recover the securities lent, the Fund may sell the collateral and purchase a replacement investment in the market. The value of the collateral could decrease below the value of the replacement investment by the time the replacement investment is purchased. Cash received as collateral through loan transactions may be invested in other eligible securities that may be subject to market appreciation or depreciation. The Fund may not be able to recall loaned securities in time to exercise its voting rights.

Money Market Instruments. The Fund may invest, for defensive purposes or otherwise, some or all of its assets in high quality fixed-income securities, money market instruments and money market mutual funds, or hold cash or cash equivalents in such amounts as the Adviser deems appropriate under the circumstances. In addition, the Fund or a private investment fund in which the Fund invests, including but not limited to private debt funds and private real estate funds managed by unaffiliated institutional asset managers, or a public investment fund in which the Fund invests

managed by unaffiliated institutional asset managers, may invest in these instruments pending allocation of its respective offering proceeds. Money market instruments are high quality, short-term fixed-income obligations, which generally have remaining maturities of one year or less and may include U.S. government securities, commercial paper, certificates of deposit and bankers' acceptances issued by domestic branches of U.S. banks that are members of the Federal Deposit Insurance Corporation, and repurchase agreements.

Cash Equivalents and Short-Term Debt Securities. For temporary defensive purposes, the Fund may invest up to 100% of its assets in cash equivalents and short-term debt securities. Short-term debt investments having a remaining maturity of 60 days or less when purchased will be valued at cost, adjusted for amortization of premiums and accretion of discounts. Short-term debt securities are defined to include, without limitation, the following:

ETF Structure Risks. The Fund is structured as an ETF and as a result is subject to special risks, including:

Trading Issues. Trading in Shares on the Exchange may be halted due to market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable, such as extraordinary market volatility. There can be no assurance that Shares will continue to meet the listing requirements of the Exchange or will trade with any volume. There is no guarantee that an active secondary market will develop for Shares of the Fund. In stressed market conditions, the liquidity of Shares of the Fund may begin to mirror the liquidity of the Fund's underlying portfolio holdings, which can be significantly less liquid than Shares of the Fund.

Market Price Variance Risk. The market prices of Shares will fluctuate in response to changes in NAV and supply and demand for Shares and will include a "bid-ask spread" charged by the exchange specialists, market makers or other participants that trade the particular security. There may be times when the market price and the NAV vary significantly. This means that Shares may trade at a discount to NAV.

Authorized Participants ("APs"), Market Makers, and Liquidity Providers Risk. The Fund has a limited number of financial institutions that may act as APs. In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares of the Fund may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.

Costs of Buying or Selling Shares of the Fund. Due to the costs of buying or selling Shares of the Fund, including brokerage commissions imposed by brokers and bid/ask spreads, frequent trading of Shares of the Fund may significantly reduce investment results and an investment in Shares of the Fund may not be advisable for investors who anticipate regularly making small investments.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), *i.e.*, they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding Shares of the Fund means the lesser of: (1) 67% or more of the outstanding Shares of the Fund present at a meeting,

if the holders of more than 50% of the outstanding Shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding Shares of the Fund. Other investment practices which may be changed by the Board of Trustees without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental (“Non-Fundamental”).

The Fund:

1. May not borrow money except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction.
2. May not issue any senior securities to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction.
3. May not underwrite securities issued by others except to the extent the Fund may be deemed to be an underwriter under the federal securities laws, in connection with the disposition of portfolio securities.
4. Will concentrate its investments in the publicly issued equity securities of residential and commercial real estate investment trusts (“MREITs and “CREITs”) that invest in residential and commercial mortgage loans, and residential mortgage-backed securities and commercial mortgage-backed securities and will therefore, at all times, invest more than 25% of its total assets in such securities. The Fund may not invest 25% or more of its total assets in the equity securities of companies or entities engaged in any other industry or group of industries. This limitation does not apply to investment in the securities of the U.S. Government, its agencies or instrumentalities.
5. May not purchase or sell real estate except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction.
6. May not make loans to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction.
7. May invest in commodities only as permitted by the 1940 Act or other governing statute, by the Rules thereunder, or by the SEC or other regulatory agency with authority over the Fund.

Except with respect to borrowing, if a percentage or rating restriction on an investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in such percentages or restrictions resulting from any cause other than actions by the Fund will not be considered a violation. Currently, subject to modification to conform to the 1940 Act as interpreted or modified, the Fund is permitted, consistent with the 1940 Act, to borrow, and pledge its Shares to secure such borrowing, provided, that immediately thereafter there is asset coverage of at least 300% for all borrowings by the Fund from a bank. If borrowings exceed this 300% asset coverage requirement by reason of a decline in net assets of the Fund, the Fund will reduce its borrowings within three days (not including Sundays and holidays) to the extent necessary to comply with the 300% asset coverage requirement. The 1940 Act also permits the Fund to borrow for temporary purposes only in an amount not exceeding 5% of the value of the Fund’s total assets at the time when the loan is made. A loan shall be presumed to be for temporary purposes if it is repaid within 60 days and is not extended or renewed. To the extent outstanding borrowings of the Fund exceed 5% of the value of the total assets of the Fund, the Fund will not make additional

purchases of securities – the foregoing shall not be construed to prevent the Fund from settling portfolio transactions or satisfying shareholder redemptions orders.

Open-end registered investment companies such as the Fund are not permitted to issue any class of senior security or to sell any senior security of which they are the issuers. The Trust is, however, permitted to issue separate series of shares and to divide those series into separate classes. The Fund currently offers one class of Shares. The Fund have no intention of issuing senior securities, except that the Trust has issued its shares in separate series and may divide those series into classes of shares. Collateral arrangements with respect to forward contracts, futures contracts or options, including deposits of initial and variation margin, are not considered to be the issuance of a senior security for purposes of this restriction.

With respect to the Fund's Fundamental Policy #4 as described above, the Fund will consider, to the extent practicable and consistent with applicable rules, regulations of the SEC and applicable guidance from the staff of the SEC, investments of its underlying investment companies when determining its compliance with the policy.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

MANAGEMENT AND OTHER SERVICE PROVIDERS

Investment Adviser. Kingsbarn Capital Management, LLC (the "Adviser"), 1645 Village Center Circle, Suite 200, Las Vegas, Nevada 89134, is the investment adviser to the Fund. The Adviser is registered as an investment adviser under the Investment Advisers Act of 1940, as amended. The Adviser is a Nevada limited liability company and is controlled by Jeff Pori.

The Adviser currently provides investment advisory services pursuant to an investment advisory agreement (the "Advisory Agreement"). Under the terms of the Advisory Agreement, the Adviser manages the investment portfolio of the Fund, subject to the policies adopted by the Trust's Board of Trustees. In addition, the Adviser: (i) furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund; (ii) provides guidance and policy direction in connection with its daily management of the Fund's assets, subject to the authority of the Trust's Board of Trustees; and (iii) is responsible for oversight of the Sub-Adviser. For its services with respect to the Fund, the Adviser is entitled to receive an annual management fee, calculated daily and payable monthly, of 0.90% of the Fund's average daily net assets. Under the Advisory Agreement, the Adviser assumes and pays, at its own expense and without reimbursement from the Trust, all ordinary expenses of the Fund, except the fee paid to the Adviser pursuant to the Advisory Agreement, distribution fees or expenses under a Rule 12b-1 plan (if any), interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction related expenses and fees arising out of transactions effected on behalf of the Fund, credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Fund's business.

The Adviser retains the right to use the name "Kingsbarn" or any derivative thereof in connection with another investment company or business enterprise with which the Adviser is or

may become associated. The Trust's right to use the name "Kingsbarn" or any derivative thereof automatically ceases ninety days after termination of the Advisory Agreement and may be withdrawn by the Adviser on ninety days written notice. The services furnished by the Adviser under the Advisory Agreement are not exclusive, and the Adviser is free to perform similar services for others.

The Advisory Agreement was approved by the Trustees (including all the Independent Trustees) in compliance with the 1940 Act. The Advisory Agreement will continue in force for an initial period of up to two years. Thereafter, the Advisory Agreement is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of those Trustees who are not "interested persons" of the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding Shares of the Fund. The Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by the Board or by a majority of the Fund's outstanding Shares on not less than 60 days' written notice to the Adviser, or by the Adviser on 90 days' written notice to the Trust. The Advisory Agreement provides that the Adviser shall not be protected against any liability to the Trust or its shareholders by reason of willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

The Adviser may make payments to banks or other financial institutions that provide shareholder services and administer shareholder accounts. If a bank or other financial institution were prohibited from continuing to perform all or a part of such services, management of the Fund believes that there would be no material impact on the Fund or its shareholders. Financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of the financial institution's services will be lower than to those shareholders who do not. The Fund may purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

The Sub-Adviser. The Adviser has retained Vident Investment Advisory, LLC (the "Sub-Adviser"), located at 1125 Sanctuary Parkway, Suite 515, Alpharetta, Georgia 30009, to serve as the trading sub-adviser for the Fund. The Sub-Adviser is responsible for trading portfolio securities for the Fund, including selecting broker-dealers to execute purchase and sale transactions or in connection with any rebalancing, subject to the supervision of the Adviser and the Board. The Sub-Adviser was established in 2014 and is a wholly-owned subsidiary of Vident Financial, LLC. Vident Financial, LLC is a wholly-owned subsidiary of the Vident Investors' Oversight Trust. Vince L. Birley, Mohammed Baki, and Baker Crow serve as the trustees of the Vident Investors' Oversight Trust.

Pursuant to an Investment Sub-Advisory Agreement between the Adviser and the Sub-Adviser (the "Sub-Advisory Agreement"), the Sub-Adviser assists the Adviser in providing day-to-day management of the Fund's portfolio. For its services, the Sub-Adviser is paid a fee by the Adviser, which is calculated daily and payable monthly as a percentage of the Fund's average daily net assets, at the annual rate of 0.065% on assets up to \$250,000,000, 0.06% on assets from \$250,000,000 to \$500,000,000, and 0.055% on assets in excess of \$500,000,000, subject to a minimum annual fee of \$50,000 (with a minimum annual fee of \$37,500 for the first six months of the Fund's operations).

The Sub-Advisory Agreement was approved by the Trustees (including all the Independent Trustees) in compliance with the 1940 Act. The Sub-Advisory Agreement will continue in force for an initial period of up to two years. Thereafter, the Sub-Advisory Agreement is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote, cast in person at a meeting called for that purpose, of a majority of those Trustees who are not

“interested persons” of the Trust; and (2) by the majority vote of either the full Board or the vote of a majority of the outstanding Shares of the Fund. The Sub-Advisory Agreement will terminate automatically in the event of its assignment, and is terminable at any time without penalty by the Board or by a majority of the Fund’s outstanding Shares or by the Adviser on not less than 60 days’ written notice to the Sub-Adviser, or by the Sub-Adviser on 90 days’ written notice to the Adviser and the Trust. The Sub-Advisory Agreement provides that the Sub-Adviser shall not be protected against any liability to the Trust or its shareholders by reason of willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

Portfolio Managers. As described in the prospectus, James Fowler and Ignatius Chiang serve as the Fund’s Portfolio Managers and they are responsible for the day-to-day investment management of the Fund. In addition to the Fund, the Portfolio Managers are responsible for the day-to-day management of certain other accounts, as listed below. The information below is provided as of December 31, 2022:

Portfolio Manager	Other Registered Investment Company Accounts	Assets Managed (\$ millions)	Other Pooled Investment Vehicle Accounts	Assets Managed (\$ millions)	Other Accounts	Assets Managed (\$ millions)	Total Assets Managed (\$ millions)
James Fowler	0	0	0	0	0	0	0
Ignatius Chiang	0	0	0	0	0	0	0

Conflicts of Interests. The Portfolio Managers’ management of “other accounts” may give rise to potential conflicts of interest in connection with their management of the Fund’s investments, on the one hand, and the investments of other accounts, on the other. Other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a Portfolio Manager could favor one account over another. Another potential conflict could include a Portfolio Manager’s knowledge about the size, timing and possible market impact of Fund trades, whereby a Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Compensation. Each Portfolio Manager receives a fixed base salary and an annual discretionary bonus. The amount of a Portfolio Manager’s bonus is based on a percentage of the profits of the Adviser and is not directly based on the performance of the Fund or any other account or fund managed by the Adviser.

Portfolio Manager Share Ownership. As of the date of this SAI, the Portfolio Managers did not beneficially own Shares of the Fund.

Administrator. Pursuant to a Fund Services Agreement, Commonwealth Fund Services, Inc., 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235 (the “Administrator”) serves as the Fund’s administrator. In its capacity as administrator, the Administrator supervises all aspects of the operations of the Fund except those performed by the Adviser. The Administrator provides certain administrative services and facilities to the Fund, including, among other responsibilities, assisting in the preparation and filing of documents required for compliance by the Fund with applicable laws and regulations and arranging for the maintenance of books and records of the Fund.

The Administrator receives an asset-based fee computed daily and paid monthly on the average daily net assets of the Fund, subject to a minimum fee plus out-of-pocket expenses.

Fund Accountant and Other Services. Pursuant to a Services Agreement with Citi Fund Services Ohio, Inc. (“Citi”), located at 4400 Easton Commons, Suite 200, Columbus, Ohio 43219, Citi provides certain financial administration services (other than those provided by the Administrator) and fund accounting services to the Fund and serves as the Fund’s dividend disbursing agent. As financial administrator, Citi performs services including but not limited to: (1) calculating Fund expenses; (2) calculating the Fund performance data; and (3) providing certain compliance support services. As fund accountant, Citi maintains certain financial records of the Trust and provides accounting services to the Fund that include the daily calculation of the Fund’s NAV. Citi also performs certain other services on behalf of the Trust including providing financial information for the Trust’s federal and state tax returns and financial reports required to be filed with the SEC.

For the financial administration and fund accounting services provided to the Trust, the Trust has agreed to pay to Citi an annual asset based fee as a percentage of the aggregate net assets of the Funds, subject to certain breakpoints and minimum fee requirements. Citi is also entitled to fees for services that it renders with respect to the filing of Form N-PORT, its services related to liquidity risk management and out-of-pocket expenses.

Custodian and Transfer Agent. Pursuant to a Custodial and Agency Services Agreement with the Trust, Citibank, N.A. (“Custodian”), located at 388 Greenwich Street, New York, New York 10048, serves as custodian and transfer agent for the Fund and safeguards and holds the Fund’s cash and securities, settles the Fund’s securities transactions and collects income on the Fund’s investments. Under the agreement, the Custodian also: (1) provides data required by the Adviser to determine the Fund’s Creation Basket and estimated All Cash Amount for each Business Day (this service is paid for by the Adviser directly pursuant to the Services Agreement between Citi and the Adviser (see “Services Agreement,” above)); (2) monitors the settlement of securities comprising the Creation Basket and any cash in connection with the purchase and redemption of Creation Units and requests the issuance of related Creation Units; (3) deposits securities comprising the Creation Basket and/or cash received from Authorized Participants in connection with purchases of Creation Units into the Fund’s custody and cash accounts; (4) disburses securities comprising the Creation Basket and/or cash from the Fund’s custody and cash accounts to Authorized Participants in connection with the redemptions of Creation Units; and (5) performs certain other related services, (See “Purchase and Redemption of Creation Units,” below).

Distributor and Principal Underwriter. Foreside Fund Services, LLC (the “Distributor”) the Fund’s distributor, is located at Three Canal Plaza, Suite 100, Portland, Maine 04101. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”).

Shares will be continuously offered for sale by the Trust through the Distributor only in whole Creation Units, as described in the section of this SAI entitled “Additional Information About Purchases and Sales.” The Distributor also acts as an agent for the Trust. The Distributor will deliver a prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Board has not adopted a Distribution and Service Plan pursuant to Rule 12b-1 (“Rule 12b-1 Plan”) under the 1940 Act with respect to the Fund. No Rule 12b-1 fees are currently paid by the Fund and there are no plans to impose these fees.

The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

Legal Counsel. Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, Kansas 66211, serves as legal counsel to the Trust and the Fund.

Independent Registered Public Accounting Firm. The Fund's independent registered public accounting firm, Cohen & Company, Ltd., audits the Fund's annual financial statements, assists in the preparation of certain reports to the SEC, and prepares the Trust's tax returns. is located at 1350 Euclid Ave., Suite 800, Cleveland, Ohio 44115.

TRUSTEES AND OFFICERS OF THE TRUST

Trustees and Officers. The Trust is governed by the Board, which is responsible for protecting the interests of shareholders. The trustees are experienced businesspersons who meet throughout the year to oversee the Trust's activities, review contractual arrangements with companies that provide services to the Fund and review performance. The names, addresses and ages of the trustees and officers of the Trust, together with information as to their principal occupations during the past five years, are listed below.

Each Trustee was nominated to serve on the Board of Trustees based on their particular experiences, qualifications, attributes and skills. Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience; (ii) qualifications; (iii) attributes; and (iv) skills. Mr. David J. Urban has been a Professor of Education since 1989. His strategic planning, organizational and leadership skills help the Board set long-term goals. Ms. Mary Lou H. Ivey has business experience as a practicing tax accountant since 1996 and, as such, brings tax, budgeting and financial reporting skills to the Board. Mr. Theo H. Pitt has experience as an investor, including his role as trustee of several other investment companies and business experience as Senior Partner of a financial consulting company, as a partner of a real estate partnership and as an Account Administrator for a money management firm. Mr. Kevin Farragher has experience as an executive in multiple roles in the investment management industry, including product management, mutual fund, ETF and brokerage operations, and trade supervision and compliance. The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Chairman of the Board of Trustees is Ms. Ivey, who is not an "interested person" of the Trust, within the meaning of the 1940 Act. The Trust also has an independent Audit Committee that allows the Board to access the expertise necessary of oversee the Trust, identify risks, recognize shareholder concerns and needs and highlight opportunities. The Audit Committee is able to focus Board time and attention to matters of interest to shareholders and, through its private sessions with the Trust's auditor, Chief Compliance Officer and legal counsel, stay fully informed regarding management decisions.

ETFs face a number of risks, including investment risk, compliance risk and valuation risk. The Board oversees management of the Fund's risks directly and through its officers. While day-to-day risk management responsibilities rest with the Fund's Chief Compliance Officer, investment advisers and other service providers, the Board monitors and tracks risk by: (1) receiving and reviewing quarterly reports related to the performance and operations of the Fund; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Trust, including the Trust's valuation policies and transaction procedures; (3) periodically meeting with the portfolio manager to review investment strategies, techniques and related risks; (4) meeting with representatives of key service providers, including the Fund's investment advisers, administrator, distributor, transfer agent

and the independent registered public accounting firm, to discuss the activities of the Fund; (5) engaging the services of the Chief Compliance Officer of the Fund to monitor and test the compliance procedures of the Trust and its service providers; (6) receiving and reviewing reports from the Trust's independent registered public accounting firm regarding the Fund's financial condition and the Trust's internal controls; and (7) receiving and reviewing an annual written report prepared by the Chief Compliance Officer reviewing the adequacy of the Trust's compliance policies and procedures and the effectiveness of their implementation. The Board has concluded that its general oversight of the investment adviser and other service providers as implemented through the reporting and monitoring process outlined above allows the Board to effectively administer its risk oversight function.

Following is a list of the Trustees and executive officers of the Trust and their principal occupation over the last five years. The mailing address of each Trustee and officer is 8730 Stony Point Parkway, Suite 205, Richmond VA, 23235, unless otherwise indicated.

Non-Interested Trustees

NAME, AGE AND POSITION WITH THE TRUST	TERM OF OFFICE AND LENGTH OF TIME SERVED	PRINCIPAL OCCUPATION(S) DURING THE PAST FIVE YEARS	NUMBER OF FUNDS IN FUND COMPLEX OVERSEEN BY TRUSTEE	OTHER DIRECTORSHIPS HELD BY TRUSTEE
David J. Urban (67) Trustee	Indefinite, Since December, 2019	Dean, Jones College of Business, Middle Tennessee State University since July 2013.	11	Independent Trustee of World Funds Trust for the twenty series of that trust.

Malaspina (54) Assistant Secretary	Indefinite, Since September 2022	Counsel, Practus, LLP (law firm), since August 2022; Vice President and Senior Counsel, State Street Corporation, October 2019 to July 2022; Senior Counsel, Apex Fund Services (formerly, Atlantic Fund Services), June 2014 to October 2019.
Julian G. Winters (54) Chief Compliance Officer	Indefinite, Since December 2019	Managing Member of Watermark Solutions, LLC (investment compliance and consulting) since March 2007.

The Board of Trustees oversees the Trust and certain aspects of the services provided by the Adviser and the Fund’s other service providers. Each Trustee will hold office until their successors have been duly elected and qualified or until their earlier resignation or removal. Each officer of the Trust serves at the pleasure of the Board and for a term of one year or until their successors have been duly elected and qualified.

The Trust has a standing Audit Committee of the Board composed of Mr. Urban, Ms. Ivey and Mr. Pitt. The functions of the Audit Committee are to meet with the Trust’s independent auditors to review the scope and findings of the annual audit, discuss the Trust’s accounting policies, discuss

any recommendations of the independent auditors with respect to the Trust’s management practices, review the impact of changes in accounting standards on the Trust’s financial statements, recommend to the Board the selection of independent registered public accounting firm, and perform such other duties as may be assigned to the Audit Committee by the Board. The Trust recently commenced operations, and the Audit Committee met four times during the 12-month period ended December 31, 2022.

The Nominating and Corporate Governance Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Nominating and Corporate Governance Committee’s purposes, duties and powers are set forth in its written charter, which is described in Exhibit C – the charter also describes the process by which shareholders of the Trust may make nominations. The Trust recently commenced operations, and the Nominating and Corporate Governance Committee met once during the 12-month period ended December 31, 2022.

The Qualified Legal Compliance Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Qualified Legal Compliance Committee receives, investigates, and makes recommendations as to the appropriate remedial action in connection with any report of evidence of a material violation of the securities laws or breach of fiduciary duty or similar violation by the Trust, its officers, Trustees, or agents. The Trust recently commenced operations, and the Qualified Legal Compliance Committee did not meet during the 12-month period ended December 31, 2022.

Trustee Compensation. Each Trustee who is not an “interested person” of the Trust may receive compensation for their services to the Trust. All Trustees are reimbursed for any out-of-pocket expenses incurred in connection with attendance at meetings. Each Trustee receives a retainer fee at the annualized rate of \$12,000. Additionally, each Trustee may receive a fee of \$2,500 per special meeting. Compensation to be received by each Trustee from the Trust for the Fund’s first fiscal year is estimated as follows:

Name of Person / Position	Aggregate Compensation From Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund and Fund Complex Paid To Trustees ^(*)(1)
David J. Urban, Trustee	\$1,200	\$0	\$0	\$1,200
Mary Lou H. Ivey, Trustee	\$1,200	\$0	\$0	\$1,200
Theo H. Pitt, Jr., Trustee	\$1,200	\$0	\$0	\$1,200
Kevin Farragher, Trustee ⁽²⁾	\$1,200	\$0	\$0	\$1,200

* The Trust does not pay deferred compensation.

(1) The “Fund Complex” consists of the Fund.

(2) Mr. Kevin Farragher resigned as Trustee of the Trust on March 7, 2023.

Trustee Ownership of Fund Shares. The table below shows for each Trustee, the amount of Fund equity securities beneficially owned by each Trustee, and the aggregate value of all

investments in equity securities of the Fund of the Trust, as of December 31, 2022, and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by the Trustees in Family of Investment Companies
<u>Non-Interested Trustees</u>		
David J. Urban	A	A
Mary Lou H. Ivey	A	A
Theo H. Pitt, Jr.	A	A

Sales Loads. No front-end or deferred sales charges are applied to purchase of Fund shares by current or former trustees, officers, employees or agents of the Trust, the Adviser, the Sub-Adviser or the principal underwriter and by the members of their immediate families. No front-end or deferred sales charges are applied to the purchase of Shares.

Policies Concerning Personal Investment Activities. The Fund, the Adviser and the Sub-Adviser have each adopted a Code of Ethics, pursuant to Rule 17j-1 under the 1940 Act that permit investment personnel, subject to their particular code of ethics, to invest in securities, including securities that may be purchased or held by the Fund, for their own account. The Codes of Ethics are available on the EDGAR Database on the SEC’s Internet website at <http://www.sec.gov>.

Proxy Voting Policies. The Trust is required to disclose information concerning the Fund’s proxy voting policies and procedures to shareholders. The Board has delegated to Adviser the responsibility for decisions regarding proxy voting for securities held by the Fund. The Adviser will vote such proxies in accordance with its proxy policies and procedures, which have been reviewed by the Board. The proxy voting policy for the Trust can be found in Exhibit A and the proxy voting policy of the Adviser can be found in Exhibit B. Any material changes to the proxy policies and procedures will be submitted to the Board for approval. Information regarding how the Fund voted proxies relating to portfolio securities for the most recent 12-month period ending June 30, will be available (1) without charge, upon request by calling 866-788-7878; and (2) on the SEC’s Internet website at <http://www.sec.gov>.

CONTROL PERSONS AND PRINCIPAL SECURITIES HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding Shares of the Fund. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of the Fund or acknowledges the existence of such control. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund’s fundamental policies or the terms of the management agreement with the Adviser.

The Fund has not yet commenced operations as of the date of this SAI.

DETERMINATION OF NET ASSET VALUE

Calculation of Share Price

The NAV of the Fund's Shares is determined by dividing the total value of the Fund's portfolio investments and other assets, less any liabilities, by the total number of Shares outstanding of the Fund.

Generally, the Fund's domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the NASDAQ National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Valuation Designee (as defined below). Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

Certain securities or investments for which daily market quotes are not readily available may be valued, pursuant to guidelines established by the Board, with reference to other securities or indices. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity. Short-term investments having a maturity of 60 days or less may be generally valued at amortized cost when it approximated fair value.

Exchange traded options are valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the exchange on which such options are traded. Futures and options on futures are valued at the settlement price determined by the exchange, or, if no settlement price is available, at the last sale price as of the close of business prior to when the Fund calculates NAV. Other securities for which market quotes are not readily available are valued at fair value as determined in good faith by the Valuation Designee (as defined below). Swap agreements and other derivatives are generally valued daily depending on the type of instrument and reference assets based upon market prices, the mean between bid and asked prices quotations from market makers or by a pricing service or other parties in accordance with the valuation procedures approved by the Board.

Under certain circumstances, the Fund may use an independent pricing service to calculate the fair market value of foreign equity securities on a daily basis by applying valuation factors to the last sale price or the mean price as noted above. The fair market values supplied by the independent pricing service will generally reflect market trading that occurs after the close of the applicable foreign markets of comparable securities or the value of other instruments that have a strong correlation to the fair-valued securities. The independent pricing service will also take into account the current relevant currency exchange rate. A security that is fair valued may be valued at a price higher or lower than actual market quotations or the value determined by other funds using their own fair valuation procedures. Because foreign securities may trade on days when Shares are not priced, the value of securities held by the Fund can change on days when Shares cannot be redeemed or purchased. In the event that a foreign security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closed before the Fund's calculation of NAV), the security will be valued at its fair market value as determined in good faith by the Valuation Designee (as defined below). Without fair valuation, it is possible that short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage

opportunities available to short-term traders, but there is no assurance that it will prevent dilution of the Fund's NAV by short-term traders. In addition, because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of these portfolio securities may change on days when you may not be able to buy or sell Shares.

Investments initially valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services or other parties in accordance with the valuation procedures approved by the Board. As a result, the NAV of the Shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Exchange is closed and an investor is not able to purchase, redeem or exchange Shares.

Shares are valued at the close of regular trading on the Exchange (normally 4:00 p.m., Eastern time) (the "Exchange Close") on each day that the Exchange is open. For purposes of calculating the NAV, the Fund normally use pricing data for domestic equity securities received shortly after the Exchange Close and does not normally take into account trading, clearances or settlements that take place after the Exchange Close. Domestic fixed income and foreign securities are normally priced using data reflecting the earlier closing of the principal markets for those securities. Information that becomes known to the Fund or its agents after the NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of the security or the NAV determined earlier that day.

Investments for which market quotations are not readily available are valued at fair value as determined in good faith pursuant to Rule 2a-5 under the 1940 Act. As a general principle, the fair value of a security or other asset is the price that would be received upon the sale of the security or asset in an orderly transaction between market participants at the measurement date and time. Pursuant to Rule 2a-5, the Board has designated the Adviser as the valuation designee ("Valuation Designee") for the Fund to perform fair value determinations relating to all Fund investments. The Adviser may carry out its designated responsibilities as Valuation Designee through a fair valuation committee, and may apply fair valuation methodologies approved by the Board, or utilize prices or inputs from pricing services, quotation reporting systems, valuation agents and other third-party sources that have been approved by the Board.

ADDITIONAL INFORMATION ABOUT PURCHASES AND SALES

Purchase and Redemption of Creation Units

Creation Units

The Trust issues and sells Shares of the Fund only in Creation Units on a continuous basis on any business day through the Distributor at the Shares' NAV next determined after receipt of an order in proper form. The Distributor processes purchase orders only on a day that the Exchange is open for trading (a "Business Day"). The Fund's share price, called the NAV per share, is determined on each business day that the NYSE is open for trading, as of the close of business of the regular session of the NYSE (generally 4:00 p.m., Eastern time).

Generally, the Trust will issue and sell Creation Units at NAV for "in kind" consideration for all or portion of the Creation Unit, meaning the initiator of a creation or redemption order will deposit or receive as consideration a portfolio of all or some of the securities held in the Fund's portfolio ("Deposit Securities"), plus a cash amount (an "In Kind Creation" and "In Kind

Redemption”). At the discretion of the Adviser, the Fund may elect at any time, and from time to time, that the consideration for the purchase and redemption of Creation Units will be made for cash (an “All Cash Amount”).

Creation Orders

The consideration for an In Kind Creation generally consists of the Deposit Securities for each Creation Unit constituting a substantial replication, or representation, of the securities included in the Fund’s portfolio as selected by the Adviser (“Fund Securities”) and the Cash Component computed as described below. Together, the Deposit Securities and the Cash Component constitute the “Fund Deposit,” which represents the minimum investment amount for a Creation Unit of the Fund. The Cash Component serves to compensate the Trust or the Authorized Participant, as applicable, for any differences between the NAV per Creation Unit and the Deposit Amount (as defined below). The Cash Component is an amount equal to the difference between the NAV of the Fund Shares (per Creation Unit) and the “Deposit Amount,” an amount equal to the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the Deposit Amount), the Authorized Participant will deliver the Cash Component. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the Deposit Amount), the Authorized Participant will receive the Cash Component.

In addition, the Trust reserves the right to permit or require the substitution of an amount of cash (that is a “cash in lieu” amount) to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below) or which might not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting or other relevant reasons. The Trust also reserves the right to permit or require a “cash in lieu” amount where the delivery of Deposit Securities by the Authorized Participant (as described below) would be restricted under the securities laws or where delivery of Deposit Securities to the Authorized Participant would result in the disposition of Deposit Securities by the Authorized Participant becoming restricted under the securities laws, and in certain other situations.

The Custodian, through the NSCC (see the section of this SAI entitled “Purchase and Redemption of Creation Units—Procedures for Creation of Creation Units”), makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m. New York time), the list of the name and the required number of shares of each Deposit Security (if any) to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. This Fund Deposit is applicable, subject to any adjustments as described below, to orders to effect creations of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities is made available, or unless the Adviser elects to receive an All Cash Amount in connection with the creation of Creation Units. The identity and number of shares of the Deposit Securities required for a Fund Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected within the Fund from time to time by the Adviser, with a view to the investment objective of the Fund. In addition to the list of names and number of securities constituting the current Deposit Securities of a Fund Deposit, the Custodian, through the NSCC, also makes available on each Business Day the estimated Cash Component, effective through and including the previous Business Day, per outstanding Creation Unit of the Fund.

The process for a creation order involving an All Cash Amount will be the same as the process for an In Kind Creation, except that the Cash Component will be the entirety of the amount deposited as consideration for the Creation Unit(s).

Procedures for Creation of Creation Units

All orders to create Creation Units must be placed with the Distributor either (1) through Continuous Net Settlement System of the NSCC (“Clearing Process”), a clearing agency that is registered with the SEC, by a “Participating Party,” i.e., a broker-dealer or other participant in the Clearing Process; or (2) outside the Clearing Process by a DTC Participant. In each case, the Participating Party or the DTC Participant must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Units (“Participant Agreement”); such parties are collectively referred to as “APs” or “Authorized Participants.” Investors should contact the Distributor for the names of Authorized Participants. All Fund Shares, whether created through or outside the Clearing Process, will be entered on the records of DTC for the account of a DTC Participant.

The Distributor will process orders to purchase Creation Units received by the closing time of the regular trading session on the Exchange (“Closing Time”) (normally 4:00 p.m. New York time), as long as they are in proper form. If an order to purchase Creation Units is received in proper form by Closing Time, then it will be processed that day. Purchase orders received in proper form after Closing Time will be processed on the following Business Day and will be priced at the NAV determined on that day. Custom orders must be received by the Distributor no later than 3:00 p.m. New York time on the trade date. In the case of an In Kind Creation, a custom order may be placed by an Authorized Participant in the event that the Trust permits the substitution of an amount of cash to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or which may not be eligible for trading by such Authorized Participant or the investor for which it is acting or other relevant reason. The date on which an order to create Creation Units (or an order to redeem Creation Units, as discussed below) is placed is referred to as the “Transmittal Date.” Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below in the sections entitled “Placement of Creation Orders Using the Clearing Process” and “Placement of Creation Orders Outside the Clearing Process.”

All orders to create Creation Units from investors who are not Authorized Participants shall be placed with an Authorized Participant in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, therefore, orders to create Creation Units of the Fund have to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement.

Those placing orders for Creation Units through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Closing Time on the Transmittal Date. Orders for Creation Units that are effected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of the Fund Deposit. For more information about Clearing Process and DTC, see the sections below entitled “Placement of Creation Orders Using the Clearing Process” and “Placement of Creation Orders Outside the Clearing Process.”

Placement of Creation Orders Using the Clearing Process

The Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of the NSCC. All Fund Deposits and/or Cash Components, as applicable, made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor or transfer agent to transmit through the Custodian to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party's creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Fund Deposits and/or Cash Component, as applicable, to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor or transfer agent on the Transmittal Date if (1) such order is received by the Distributor not later than the Closing Time on such Transmittal Date and (2) all other procedures set forth in the Participant Agreement are properly followed.

Placement of Creation Orders Outside the Clearing Process

All Fund Deposits and/or Cash Component, as applicable, made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC Participant who wishes to place an order creating Creation Units to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of cash and securities directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Fund by no later than 11:00 a.m. New York time on the next Business Day following the Transmittal Date ("DTC Cut-Off-Time").

All questions as to the amount of an All Cash Amount, the number of Deposit Securities to be delivered, or the amount of a Cash Component, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The amount of cash equal to the Cash Component (including All Cash Amounts) must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 2:00 p.m. New York time on the next Business Day following the Transmittal Date. An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (1) such order is received by the Distributor not later than the Closing Time on such Transmittal Date and (2) all other procedures set forth in the Participant Agreement are properly followed. However, if the Custodian does not receive both the requisite Deposit Securities and the Cash Component or the All Cash Amount, as applicable, by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day following the Transmittal Date, such order will be canceled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using the Fund Deposits and/or Cash Components as newly constituted to reflect the then-current Deposit Securities and Cash Component, or the All Cash Amount, as applicable. The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Additional transaction fees may be imposed with respect to transactions effected through a DTC participant outside the Clearing Process and in the limited circumstances in which any cash can be used in lieu of Deposit Securities to create Creation Units. See the section of this SAI entitled "Purchase and Redemption of Creation Units—Creation Transaction Fee."

Creation Units of an In-Kind Creation may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities. In these circumstances, the initial deposit will have a value greater than the NAV of the Fund Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (1) the Cash Component plus (2) 125% of the then-current market value of the undelivered Deposit Securities (“Additional Cash Deposit”). The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to Closing Time and funds in the appropriate amount are deposited with the Custodian by 11:00 a.m. New York time the following Business Day. If the order is not placed in proper form by Closing Time or funds in the appropriate amount are not received by 11:00 a.m. the next Business Day, then the order may be deemed to be canceled and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending receipt of the undelivered Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 125% of the daily marked-to-market value of the undelivered Deposit Securities. To the extent that undelivered Deposit Securities are not received by 1:00 p.m. New York time on the third Business Day following the day on which the purchase order is deemed received by the Distributor, or in the event a marked-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the undelivered Deposit Securities. Authorized Participants will be liable to the Trust and the Fund for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the undelivered Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust’s custodial account. In addition, a transaction fee will be charged in all cases. See the section below entitled “Creation Transaction Fee.” The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Acceptance of Orders for Creation Units

The Trust reserves the absolute right to reject a creation order transmitted to it by the Distributor if: (1) the order is not in proper form; (2) if the Cash Component paid is incorrect; (3) the investor(s), upon obtaining the Fund Shares ordered, would own 80% or more of the currently outstanding Shares of the Fund; (4) the Deposit Securities delivered are not as disseminated for that date by the Custodian, as described above; (5) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; or (6) there exist circumstances outside the control of the Trust, the Custodian, transfer agent, the Distributor and the Adviser that make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Adviser, the Distributor or transfer agent, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of such prospective creator of its rejection of the order. The Trust, the Custodian, any sub-custodian, the transfer agent and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification. All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust and the Trust’s determination shall be final and binding.

Creation Units typically are issued on a “T+1 basis” (that is, one Business Day after trade date). To the extent contemplated by an Authorized Participant’s agreement with the Distributor, the Trust will issue Creation Units of an In Kind Creation to such Authorized Participant notwithstanding the fact that the corresponding Portfolio Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Securities as soon as possible, which undertaking shall be secured by such Authorized Participant’s delivery and maintenance of collateral having a value equal to 110%, which the Adviser may change from time to time, of the value of the missing Deposit Securities in accordance with the Trust’s then-effective procedures. Such collateral must be delivered no later than 2:00 p.m., Eastern Time, on the contractual settlement date. The only collateral that is acceptable to the Trust is cash in U.S. Dollars or an irrevocable letter of credit in form, and drawn on a bank, that is satisfactory to the Trust. The cash collateral posted by the Authorized Participant may be invested at the risk of the Authorized Participant, and income, if any, on invested cash collateral will be paid to that Authorized Participant. Information concerning the Trust’s current procedures for collateralization of missing Deposit Securities is available from the Distributor or transfer agent. The Authorized Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such securities and the cash collateral or the amount that may be drawn under any letter of credit.

In certain cases, Authorized Participants will create and redeem Creation Units (whether by In Kind Creation/Redemption or for an All Cash Amount) on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis. All questions as to the amount of cash required to be delivered, the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered, as applicable, shall be determined by the Trust, and the Trust’s determination shall be final and binding.

Creation Transaction Fee

Authorized Participants will be required to pay to the Custodian a fixed transaction fee (“Creation Transaction Fee”) in connection with creation orders that is intended to offset the transfer and other transaction costs associated with the issuance of Creation Units. The standard creation transaction fee will be the same regardless of the number of Creation Units purchased by an investor on the applicable Business Day. The Creation Transaction Fee charged by the Fund’s custodian for each creation order is \$250.

In addition, a variable fee, payable to the Fund, of up to 2% of the value of the Creation Units subject to the transaction may be imposed for cash purchases, non-standard orders, or partial cash purchases of Creation Units. The variable charge is primarily designed to cover additional costs (e.g., brokerage, taxes) involved with buying the securities with cash. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders. Investors are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust.

In order to seek to replicate the In Kind Creation order process for creation orders executed in whole or in part with cash, the Trust expects to purchase, in the secondary market or otherwise gain exposure to, the portfolio securities that could have been delivered as a result of an In Kind Creation order pursuant to local law or market convention, or for other reasons (“Creation Market Purchases”). In such cases where the Trust makes Creation Market Purchases, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Trust and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes.

The Creation Transaction Fee may be waived for the Fund when the Adviser believes that waiver of the Creation Transaction Fee is in the best interest of the Fund. When determining whether to waive the Creation Transaction Fee, the Adviser considers a number of factors including whether waiving the Creation Transaction Fee will: facilitate the initial launch of the Fund; facilitate portfolio rebalancings in a less costly manner; improve the quality of the secondary trading market for the Fund's Shares; and not result in the Fund bearing additional costs or expenses as a result of the waiver.

Redemption Orders

The process to redeem Creation Units is essentially the reverse of the process by which Creation Units are created, as described above. To redeem Shares directly from the Fund, an investor must be an Authorized Participant or must redeem through an Authorized Participant. The Trust redeems Creation Units on a continuous basis on any Business Day through the Distributor at the Shares' NAV next determined after receipt of an order in proper form. The Fund will not redeem Shares in amounts less than Creation Units. Authorized Participants must accumulate enough Shares in the secondary market to constitute a Creation Unit in order to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit.

Generally, Creation Units of the Fund will also be redeemed at NAV principally in kind, although the Fund reserves the right to redeem all or a portion in cash, in each case less a transaction fee as described below. With respect to In Kind Redemptions, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m. New York time) on each Business Day, the identity of the Fund Securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as described below) on that day. Fund Securities received on redemption may not be identical to Deposit Securities that are applicable to creations of Creation Units. The redemption proceeds for an In Kind Redemption of a Creation Unit consists of Fund Securities – as announced on the Business Day the request for redemption is received in proper form – plus or minus cash in an amount equal to the difference between the NAV of the Fund Shares being redeemed, as next determined after a receipt of a redemption request in proper form, and the value of the Fund Securities (“Cash Redemption Amount”), less a redemption transaction fee (see the section below entitled “Redemption Transaction Fee”).

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the Fund or determination of the Fund's NAV is not reasonably practicable; or (4) in such other circumstances as is permitted by the SEC.

Deliveries of redemption proceeds by the Fund generally will be made within two Business Days (that is “T+2”). However, as discussed in Appendix B, the Fund reserves the right to settle redemption transactions and deliver redemption proceeds on a basis other than T+2 to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and dividend ex-dates (that is the last date the holder of a security can sell the security and still receive dividends payable on the security sold), and in certain other circumstances.

The process for a redemption order involving an All Cash Amount will be the same as the process for an In-Kind Redemption, except that the proceeds of the redemption will be paid entirely in cash. Proceeds of redemptions of Creation Units payable in an All Cash Amount will be paid to

the Authorized Participant redeeming Shares on behalf of the redeeming investor as soon as practicable after the date of redemption (within seven calendar days thereafter).

Placement of Redemption Orders Using the Clearing Process

Orders to redeem Creation Units through the Clearing Process must be delivered through an Authorized Participant that has executed a Participant Agreement. Investors other than Authorized Participants are responsible for making arrangements with an Authorized Participant for an order to redeem. An order to redeem Creation Units is deemed received by the Trust on the Transmittal Date if: (1) such order is received by the Distributor not later than Closing Time on such Transmittal Date; and (2) all other procedures set forth in the Participant Agreement are properly followed. Such order will be effected based on the NAV of the relevant Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Distributor after Closing Time will be deemed received on the next Business Day immediately following the Transmittal Date and will be effected at the NAV determined on such next Business Day. The requisite Fund Securities and/or the Cash Redemption Amount, as applicable, will be transferred by the third NSCC business day following the date on which such request for redemption is deemed received.

Placement of Redemption Orders Outside the Clearing Process

Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant who wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Fund Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (1) such order is received by the Distributor not later than Closing Time on such Transmittal Date; (2) such order is accompanied or followed by the requisite number of Fund Shares, which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off-Time, and the Cash Redemption Amount, if owed to the Fund, which delivery must be made by 2:00 p.m. New York Time; and (3) all other procedures set forth in the Participant Agreement are properly followed. After the Distributor receives an order for redemption outside the Clearing Process, the Distributor will initiate procedures to transfer the requisite Fund Securities which are expected to be delivered and the Cash Redemption Amount, if any, by the third Business Day following the Transmittal Date.

The calculation of the value of the Fund Securities and/or the Cash Redemption Amount, as applicable, to be delivered or received upon redemption (by the Authorized Participant or the Trust, as applicable) will be made by the Custodian according to the procedures set forth in the section of this SAI entitled "Determination of Net Asset Value" computed on the Business Day on which a redemption order is deemed received by the Distributor. Therefore, if a redemption order in proper form is submitted to the Distributor by a DTC Participant not later than Closing Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the Fund Securities and/or the Cash Redemption Amount, as applicable, to be delivered or received (by the Authorized Participant or the Trust, as applicable) will be determined by the Custodian on such Transmittal Date. If, however, either (1) the requisite number of Shares of the Fund are not delivered by the DTC Cut-Off-Time, as described above, or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Fund Securities and/or the Cash Redemption Amount, as applicable, to be delivered or received will be computed on the Business Day following the Transmittal Date provided that the Fund Shares of the Fund are

delivered through DTC to the Custodian by 11:00 a.m. New York time the following Business Day pursuant to a properly submitted redemption order.

The Trust may in its discretion at any time, or from time to time, exercise its option to redeem Fund Shares solely for consideration in the form of an All Cash Amount, and the redeeming Authorized Participant will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Trust may permit, in its sole discretion. In either case, the investor will receive an All Cash Amount payment equal to the NAV of its Fund Shares based on the NAV of Shares of the Fund next determined after the redemption request is received in proper form (minus a transaction fee which will include an additional charge for cash redemptions to offset the Fund's brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities, or cash in lieu of some securities added to the Cash Redemption Amount, but in no event will the total value of the securities delivered and the cash transmitted differ from the NAV. Redemptions of Fund Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws.

An Authorized Participant or an investor for which it is acting that is subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the Fund Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

Redemption Transaction Fee

Investors will be required to pay to the Custodian a fixed transaction fee ("Redemption Transaction Fee") to offset the transfer and other transaction costs associated with the redemption of Creation Units. The standard redemption transaction fee will be the same regardless of the number of Creation Units redeemed by an investor on the applicable Business Day. The Redemption Transaction Fee charged by the Fund's custodian for each redemption order is \$250.

In addition, a variable fee, payable to the Fund, of up to 2% of the value of the Fund Securities sold subject to the transaction may be imposed for redemptions made in an All Cash Amount (to offset the Trust's brokerage and other transaction costs associated with the sale of Fund Securities), non-standard orders, or partial cash redemptions. The Fund may determine to not charge a variable fee on certain orders when the Adviser has determined that doing so is in the best interests of Fund shareholders. Investors will also bear the costs of transferring the Fund Securities from the Trust to their account or on their order.

In order to seek to replicate the In Kind Redemption order process for creation orders executed in whole or in part with cash, the Trust expects to sell, in the secondary market, the portfolio securities or settle any financial instruments that may not be permitted to be re-registered in the name of the Participating Party as a result of an In Kind Redemption order pursuant to local law or market convention, or for other reasons ("Market Sales"). In such cases where the Trust makes Market Sales, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were sold or settled by the Trust and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes.

Regardless of form, the Redemption Transaction Fee (including any reimbursements related to in cash redemptions or additional variable fees for In Kind Redemptions) will be limited in accordance with the requirements of the SEC applicable to management investment companies offering redeemable securities (currently, no more than 2% of the value of the Shares redeemed).

The Redemption Transaction Fee may be waived for the Fund when the Adviser believes that waiver of the Redemption Transaction Fee is in the best interest of the Fund. When determining whether to waive the Redemption Transaction Fee, the Adviser considers a number of factors including whether waiving the Redemption Transaction Fee will: facilitate portfolio rebalancings in a less costly manner; improve the quality of the secondary trading market for the Fund's Shares; and not result in the Fund bearing additional costs or expenses as a result of the waiver.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Adviser and its affiliates may, out of its own resources and without additional cost to the Fund or its shareholders, pay a solicitation fee to securities dealers or other financial intermediaries (collectively, a "Financial Intermediary.")

TAXES

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Fund and its shareholders. The discussion reflects applicable federal income tax laws of the U.S. as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the "IRS"), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Fund and its shareholders (including shareholders owning large positions in the Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Fund.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust, insurance company, regulated investment company ("RIC"), individual retirement account, other tax-exempt entity, dealer in securities or non-U.S. investor. Furthermore, this discussion does not reflect possible application of the alternative minimum tax ("AMT"). Unless otherwise noted, this discussion assumes Shares of the Fund are held by U.S. shareholders and that such Shares are held as capital assets.

A U.S. shareholder is a beneficial owner of shares of the Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. shareholders have the authority to control all of its substantial decisions or the trust has made a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

A “Non-U.S. shareholder” is a beneficial owner of Shares of the Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds Shares of the Fund, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A prospective shareholder who is a partner of a partnership holding the Fund Shares should consult its tax advisors with respect to the purchase, ownership and disposition of its Fund Shares.

Taxation as a RIC. The Fund intends to qualify and remain qualified as a RIC under the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”). The Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, the Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such shares, securities or currencies and (ii) net income derived from an interest in a “qualified publicly traded partnership.” A “qualified publicly traded partnership” is generally defined as a publicly traded partnership under Internal Revenue Code section 7704. However, for these purposes, a qualified publicly traded partnership does not include a publicly traded partnership if 90% or more of its income is described in (i) above. Income derived from a partnership (other than a qualified publicly traded partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by the Fund in the same manner as realized by the partnership or trust.

If a RIC fails this 90% source-of-income test as long as such failure was due to reasonable cause and not willful neglect it is no longer subject to a corporate level tax. Instead, the amount of the penalty for non-compliance is the amount by which the non-qualifying income exceeds one-ninth of the qualifying gross income.

With respect to the asset-diversification requirement, the Fund must diversify its holdings so that, at the end of each quarter of each taxable year (i) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund’s total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund’s total assets is invested in the securities other than U.S. government securities or the securities of other RICs of (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships.

If a RIC fails this asset-diversification test, such RIC, in addition to other cure provisions previously permitted, has a 6-month period to correct any failure without incurring a penalty if such failure is “de minimis,” meaning that the failure does not exceed the lesser of 1% of the RIC’s assets, or \$10 million.

Similarly, if a RIC fails this asset-diversification test and the failure is not de minimis, a RIC can cure failure if: (a) the RIC files with the Treasury Department a description of each asset that causes the RIC to fail the diversification tests; (b) the failure is due to reasonable cause and not willful neglect; and (c) the failure is cured within six months (or such other period specified by the Treasury). In such cases, a tax is imposed on the RIC equal to the greater of: (a) \$50,000 or (b) an amount determined by multiplying the highest rate of tax (currently 21%) by the amount of net income generated during the period of diversification test failure by the assets that caused the RIC to fail the diversification test.

If the Fund qualifies as a RIC and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its “investment company taxable income” as that term is defined in the Internal Revenue Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed, the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gains, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to U.S. federal income tax at regular corporate federal income tax rates (currently at a maximum rate of 21%). The Fund intends to distribute at least annually substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

The Fund will generally be subject to a nondeductible 4% federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. To avoid the 4% federal excise tax, the required minimum distribution is generally equal to the sum of (i) 98% of the Fund’s ordinary income (computed on a calendar year basis), (ii) 98.2% of the Fund’s capital gain net income (generally computed for the one-year period ending on October 31) and (iii) any income realized, but not distributed, and on which the Fund paid no federal income tax in preceding years. The Fund generally intends to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

The Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if the Fund holds debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with payment in kind interest or, in certain cases, with increasing interest rates or that are issued with warrants), the Fund must include in income each year a portion of the original issue discount that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any original issue discount accrued will be included in the Fund’s “investment company taxable income” (discussed above) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the distribution requirement, even though it will not have received an amount of cash that corresponds with the income earned.

To the extent that the Fund has capital loss carryforwards from prior tax years, those carryforwards will reduce the net capital gains that can support the Fund’s distribution of Capital Gain Dividends. If the Fund uses net capital losses incurred in taxable years beginning on or before December 22, 2010 (pre-2011 losses), those carryforwards will not reduce the Fund’s current earnings and profits, as losses incurred in later years will. As a result, if the Fund then makes distributions of capital gains recognized during the current year in excess of net capital gains (as reduced by carryforwards), the portion of the excess equal to pre-2011 losses factoring into net capital gain will be taxable as an ordinary dividend distribution, even though that distributed excess amount would not have been subject to tax if retained by the Fund. Capital loss carryforwards are reduced to the extent they offset current-year net realized capital gains, whether the Fund retains or distributes such gains. Beginning in 2011, a RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term). For net capital losses recognized prior to such date, such losses are permitted to be carried forward up to 8 years and are characterized as short-term. These capital loss carryforwards may be utilized in future years to offset net realized capital gains of the Fund, if any, prior to distributing such gains to shareholders.

Except as set forth in “Failure to Qualify as a RIC,” the remainder of this discussion assumes

that the Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC. If the Fund is unable to satisfy the 90% distribution requirement or otherwise fail to qualify as a RIC in any year, they will be subject to corporate level income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to the Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, the Fund's distributions, to the extent derived from the Fund's current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends received deduction available to corporate shareholders, and non-corporate shareholders would generally be able to treat such distributions as "qualified dividend income" eligible for reduced rates of U.S. federal income taxation, if holding period and other requirements are satisfied.

Distributions in excess of the Fund's current and accumulated earnings and profits would be treated first as a return of capital to the extent of the shareholders' tax basis in their Fund shares, and any remaining distributions would be treated as a capital gain. To qualify as a RIC in a subsequent taxable year, the Fund would be required to satisfy the source-of-income, the asset diversification, and the annual distribution requirements for that year and dispose of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Internal Revenue Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the nonqualifying year, the Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent 10 years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its requalification as a RIC.

Taxation for U.S. Shareholders. Distributions paid to U.S. shareholders by the Fund from its investment company taxable income (which is, generally, the Fund's ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally taxable to U.S. shareholders as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional shares. Such distributions (if designated by the Fund) may qualify (i) for the dividends received deduction in the case of corporate shareholders under Section 243 of the Internal Revenue Code to the extent that the Fund's income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers' cooperatives or real estate investment trusts or (ii) in the case of individual shareholders, as qualified dividend income eligible to be taxed at reduced rates under Section 1(h)(11) of the Internal Revenue Code (which provides for a maximum 20% rate) to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and other requirements are met. Qualified dividend income is, in general, dividend income from taxable domestic corporations and qualified foreign corporations (e.g., generally, foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company. Distributions made to a U.S. shareholder from an excess of net long-term capital gains over net short-term capital losses ("capital gain dividends"), including capital gain dividends credited to such shareholder but retained by the Fund, are taxable to such shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such shareholder owned the shares of the Fund. Note that in light of the Fund's investment objective, it does not expect a large portion of its dividends from the Fund's net investment income to qualify as "qualified dividend income" or to qualify for the dividends-received deduction. The maximum tax rate on capital gain dividends received by individuals is generally 20%. Distributions in excess of the Fund's earnings

and profits will be treated by the U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder (assuming the shares are held as a capital asset). The Fund is not required to provide written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions. The Forms 1099 will instead serve this notice purpose.

As a RIC, the Fund will be subject to the AMT, but any items that are treated differently for AMT purposes must be apportioned between the Fund and the shareholders and this may affect the shareholders' AMT liabilities. The Fund intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to the Fund's taxable income (determined without regard to the dividends paid deduction).

For purpose of determining (i) whether the annual distribution requirement is satisfied for any year and (ii) the amount of capital gain dividends paid for that year, the Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If the Fund makes such an election, the U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by the Fund in October, November or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

The Fund intends to distribute all realized capital gains, if any, at least annually. If, however, the Fund is to retain any net capital gain, the Fund may designate the retained amount as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of shares owned by a shareholder of the Fund will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the shareholder's gross income and the tax deemed paid by the shareholders.

Sales of Shares or redemption of Creation Units and other dispositions of the shares, such as exchanges, of the Fund generally are taxable events. U.S. shareholders should consult their own tax adviser with reference to their individual circumstances to determine whether any particular transaction in the Shares of the Fund is properly treated as a sale or exchange for federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such transactions. The sale of Shares or redemption of Creation Units or other disposition of Shares of the Fund will generally result in capital gain or loss to the shareholder equal to the difference between the amount realized and his adjusted tax basis in the Shares sold or exchanged, and will be long-term capital gain or loss if the Shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of Shares held for six months or less will be treated as long-term capital loss to the extent of any capital gain dividends received (including amounts credited as an undistributed capital gain dividend) by such shareholder with respect to such shares. A loss realized on a sale or exchange of Shares of the Fund generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the Shares are disposed. In such case, the basis of the Shares acquired will be adjusted to reflect the disallowed loss. Present law taxes both long-term and short-term capital gain of corporations at the rates applicable to ordinary income of corporations. For non-corporate taxpayers, short-term capital gain will currently be taxed at the rate applicable to ordinary income, while long-term capital gain generally will be taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

An Authorized Participant who exchanges securities for Creation Units generally will recognize gain or loss from the exchange. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units and the exchanger's basis in the Creation Units. The IRS, however, may assert that an Authorized Participant which does not mark-to-market its holdings may not be permitted to currently deduct losses realized upon an exchange of securities for Creation Units under the rules governing "wash sales," or on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if the Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will be treated as short-term capital gains or losses. Any loss realized upon a redemption of Creation Units held for six months or less will be treated as a long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gains with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

The Trust on behalf of the Fund has the right to reject an order for a purchase of Shares of the Fund if the purchaser (or group of purchasers) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to Section 351 of the Internal Revenue Code, the Fund would have a basis in the securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination. If the Fund does issue Creation Units to a purchaser (or group of purchasers) that would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund, the purchaser (or group of purchasers) may not recognize gain or loss upon the exchange of securities for Creation Units.

Persons purchasing or redeeming Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rules apply and when a loss might be deductible.

Federal law requires that ETFs report their shareholders' cost basis, gain/loss, and holding period to the Internal Revenue Service on the Fund's shareholders' Consolidated Form 1099s when "covered" securities are sold. Covered securities are any regulated investment company and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific Shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders. The Fund's standing tax lot identification method is the method covered Shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

For those securities defined as "covered" under current Internal Revenue Service cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered." The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

For taxable years beginning after December 31, 2013, certain U.S. shareholders, including individuals and estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Straddles. When the Fund enters into an offsetting position to limit the risk on another position, the "straddle" rules usually come into play. An option or other position entered into or held by the Fund in conjunction with any other position held by the Fund may constitute a "straddle" for Federal income tax purposes. In general, straddles are subject to certain rules that may affect the character and timing of the Fund's gains and losses with respect to straddle positions. The key features of the straddle rules are as follows:

The Fund may have to wait to deduct any losses. If the Fund has a capital gain in one position of a straddle and a capital loss in the other, the Fund may not recognize the loss for federal income tax purposes until the Fund disposes of both positions. This might occur, for example, if the Fund had a highly appreciated stock position and the Fund purchased protective put options (which give the Fund the right to sell the stock to someone else for a period of time at a predetermined price) to offset the risk. If the stock continued to increase in value and the put options expired worthless, the Fund must defer recognition of the loss on its put options until the Fund sells and recognizes the gain on the original, appreciated position.

The Fund's capital gain holding period may get clipped. The moment the Fund enters into a typical straddle, the capital gains holding period on its offsetting positions is frozen. If the Fund held the original position for one year or less (thus not qualifying for the long-term capital gains rate), not only is the holding period frozen, it starts all over again when the Fund disposes of the offsetting position.

Losses recognized with respect to certain straddle positions that would otherwise constitute short-term capital losses may be treated as long-term capital losses. This generally has the effect of reducing the tax benefit of such losses.

The Fund may not be able to deduct any interest expenses or carrying charges. During the offsetting period, any interest or carrying charges associated with the straddle are not currently tax deductible, but must be capitalized (added to cost basis).

Investments in REITs. A portion of the Fund's distributions received from REITs may be classified as a return of capital for federal income tax purposes. As a result, the Fund is more likely to make distributions that are treated as returns of capital, and possibly in greater amounts, than a fund that does not invest in REITs. Please note that you may receive account tax information from the Fund at the end of February of each year. REITs typically recharacterize a portion of the dividends paid during the year from ordinary income to capital gain and/or return of capital (which could relate to depreciation on real estate). The information regarding this recharacterization is generally not made available by the REIT until late January. Therefore, the actual composition of the Fund's distributions during a year may change substantially subsequent to year-end. To the extent these changes occur, they may have the effect of reducing the net investment income component of the Fund's distributions and increasing the capital gains and/or return of capital components.

The Fund's investments in REIT equity securities, if any, may require the Fund to accrue and distribute income not yet received. In order to generate sufficient cash to make the requisite distributions, the Fund may be required to sell securities at a time when fundamental investment considerations would not favor such sales. The Fund's investments in REIT equity securities may result in the receipt of cash in excess of the REIT's earnings. If the Fund distributes such amounts, such distribution could constitute a return of capital to shareholders for federal income tax purposes. Some REITs are permitted to hold "residual interests" in REMICs. Pursuant to an IRS notice, a portion of the Fund's income from a REIT that is attributable to the REIT's residual interest in a REMIC (referred to in the Internal Revenue Code as an "excess inclusion") may be subject to federal income tax in all events. Excess inclusion income will normally be allocated to shareholders in proportion to the dividends received by such shareholders with the same consequences as if the shareholders held the related REMIC residual interest directly. There may be instances in which the Fund may be unaware of a REIT's excess inclusion income. In general, excess inclusion income allocated to shareholders: (a) cannot be offset by net operating losses (subject to a limited exception for certain thrift institutions); (b) will constitute unrelated business taxable income ("UBTI") to entities (including a qualified pension plan, an individual retirement account, a 401(k) plan, a Keogh plan, or other tax-exempt entity) subject to tax on unrelated business income, thereby potentially requiring such an entity that is allocated excess inclusion income, and otherwise might not be required to file a federal income tax return, to file a tax return and pay tax on such income; and (c) in the case of a foreign shareholder, will not qualify for any reduction in U.S. federal withholding tax. Tax-exempt investors sensitive to UBTI are strongly encouraged to consult their tax advisers prior to investment in the Fund. In addition, if at any time during any taxable year a disqualified organization" (as defined by the Internal Revenue Code) is a record holder of a share in a regulated investment company, then the regulated investment company will be subject to a tax equal to that portion of its excess inclusion income for the taxable year that is allocable to the disqualified organization, multiplied by the applicable corporate tax rate. This may impact the Fund's performance.

For taxable years beginning after December 31, 2017 and before January 1, 2026, ordinary REIT dividends are treated as “qualified business income” that is eligible for a 20% federal income tax deduction in the case of individuals, trusts and estates. Regulations enable a fund to pass through the special character of “qualified REIT dividends” to its shareholders. The amount of a regulated investment company’s dividends eligible for the 20% deduction for a taxable year is limited to the excess of the regulated investment company’s qualified REIT dividends for the taxable year over allocable expenses. To be eligible to treat distributions from the Fund as qualified REIT dividends, a shareholder must hold shares of the Fund for more than 45 days during the 91-day period beginning on the date that is 45 days before the date on which the shares become ex-dividend with respect to such dividend and the shareholder must not be under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property. If the Fund does not elect to pass the special character of this income through to shareholders or if a shareholder does not satisfy the above holding period requirements, the shareholder will not be entitled to the 20% deduction for the shareholder’s share of the Fund’s qualified REIT dividend income.

Original Issue Discount, Pay-In-Kind Securities, Market Discount and Commodity-Linked Notes. Some debt obligations with a fixed maturity date of more than one year from the date of issuance (and zero-coupon debt obligations with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in the Fund’s taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having “market discount.” Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its “revised issue price”) over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt obligation. Alternatively, the Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in the Fund’s income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in the Fund’s income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear. See “Higher-Risk Securities.”

Some debt obligations (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having “acquisition discount” (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. The Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

If the Fund holds the foregoing kinds of securities, they may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, their shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Higher-Risk Securities. To the extent such investments are permissible for the Fund, the Fund may invest in debt obligations that are in the lowest rating categories or are unrated, including debt obligations of issuers not currently paying interest or who are in default. Investments in debt obligations that are at risk of or in default present special tax issues for the Fund. Tax rules are not entirely clear about issues such as when the Fund may cease to accrue interest, OID or market discount, when and to what extent deductions may be taken for bad debts or worthless securities and how payments received on obligations in default should be allocated between principal and income. In limited circumstances, it may also not be clear whether the Fund should recognize market discount on a debt obligation, and if so, what amount of market discount the Fund should recognize. These and other related issues will be addressed by the Fund when, as and if it invests in such securities, in order to seek to ensure that it distributes sufficient income to preserve its status as a regulated investment company and does not become subject to U.S. federal income or excise tax.

Issuer Deductibility of Interest. A portion of the interest paid or accrued on certain high yield discount obligations owned by the Fund may not be deductible to (and thus, may affect the cash flow of) the issuer. If a portion of the interest paid or accrued on certain high yield discount obligations is not deductible, that portion will be treated as a dividend for purposes of the corporate dividends-received deduction. In such cases, if the issuer of the high yield discount obligations is a domestic corporation, dividend payments by the Fund may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such accrued interest.

Interest paid on debt obligations owned by the Fund, if any, that are considered for U.S. tax purposes to be payable in the equity of the issuer or a related party will not be deductible to the issuer, possibly affecting the cash flow of the issuer.

Tax-Exempt Shareholders. A tax-exempt shareholder could recognize UBTI by virtue of its investment in the Fund if Shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Internal Revenue Code Section 514(b). Furthermore, a tax-exempt shareholder may recognize UBTI if the Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in REMICs or equity interests in TMPs if the amount of such income recognized by the Fund exceeds the Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in regulated investment companies that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. Under legislation enacted in December 2006, a CRT (as defined in section 664 of the Internal Revenue Code) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in the Fund that recognize “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in the Fund that recognize “excess inclusion income,” then the regulated investment company will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such

shareholders, at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder's distributions for the year by the amount of the tax that relates to such shareholder's interest in the Fund. The Fund has not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their tax advisers concerning the consequences of investing in the Fund.

Foreign Taxation. Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the U.S. may reduce or eliminate such taxes.

A "qualified fund of funds" is a RIC that has at least 50% of the value of its total interests invested in other RICs at the end of each quarter of the taxable year. If the Fund satisfies this requirement or if it meets certain other requirements, which include a requirement that more than 50% of the value of the Fund's total assets at the close of its taxable year consist of stocks or securities of foreign corporations, then the Fund should be eligible to file an election with the IRS that may enable its shareholders to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations.

Foreign Shareholders. Capital Gain Dividends are generally not subject to withholding of U.S. federal income tax. Absent a specific statutory exemption, dividends other than Capital Gain Dividends paid by the Fund to a shareholder that is not a "U.S. person" within the meaning of the Internal Revenue Code (such shareholder, a "foreign shareholder") are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

A regulated investment company is not required to withhold any amounts (i) with respect to distributions (other than distributions to a foreign person (a) that does not provide a satisfactory statement that the beneficial owner is not a U.S. person, (b) to the extent that the dividend is attributable to certain interest on an obligation if the foreign person is the issuer or is a 10% shareholder of the issuer, (c) that is within a foreign country that has inadequate information exchange with the United States, or (d) to the extent the dividend is attributable to interest paid by a person that is a related person of the foreign person and the foreign person is a controlled foreign corporation) from U.S.-source interest income of types similar to those not subject to U.S. federal income tax if earned directly by an individual foreign person, to the extent such distributions are properly reported as such by the Fund in a written notice to shareholders ("interest-related dividends"), and (ii) with respect to distributions (other than (a) distributions to an individual foreign person who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (b) distributions subject to special rules regarding the disposition of U.S. real property interests as described below) of net short-term capital gains in excess of net long-term capital losses to the extent such distributions are properly reported by the regulated investment company ("short-term capital gain dividends"). If the Fund invests in an underlying fund that pays such distributions to the Fund, such distributions retain their character as not subject to withholding if properly reported when paid by the Fund to foreign persons.

The Fund is permitted to report such part of their dividends as interest-related or short-term capital gain dividends as are eligible, but is not required to do so. These exemptions from withholding will not be available to foreign shareholders of the Fund that do not currently report dividends as interest-related or short-term capital gain dividends.

In the case of shares held through an intermediary, the intermediary may withhold even if the Fund report all or a portion of a payment as an interest-related or short-term capital gain dividend to shareholders. Foreign persons should contact their intermediaries regarding the application of these rules to their accounts.

Under U.S. federal tax law, a beneficial holder of shares who is a foreign shareholder generally is not subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of shares of the Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States, (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of "U.S. real property interests" ("USRPIs") apply to the foreign shareholder's sale of shares of the Fund or to the Capital Gain Dividend the foreign shareholder received (as described below).

Special rules would apply if the Fund is either a "U.S. real property holding corporation" ("USRPHC") or would be a USRPHC but for the operation of certain exceptions to the definition thereof. Very generally, a USRPHC is a domestic corporation that holds USRPIs the fair market value of which equals or exceeds 50% of the sum of the fair market values of the corporation's USRPIs, interests in real property located outside the United States, and other assets. USRPIs are generally defined as any interest in U.S. real property and any interest (other than solely as a creditor) in a USRPHC or former USRPHC.

If the Fund is a USRPHC or would be a USRPHC but for the exceptions referred to above, any distributions by the Fund to a foreign shareholder (including, in certain cases, distributions made by the Fund in redemption of its shares) attributable to gains realized by the Fund on the disposition of USRPIs or to distributions received by the Fund from a lower-tier regulated investment company or REIT that the Fund is required to treat as USRPI gain in its hands generally would be subject to U.S. tax withholding. In addition, such distributions could result in the foreign shareholder being required to file a U.S. tax return and pay tax on the distributions at regular U.S. federal income tax rates. The consequences to a foreign shareholder, including the rate of such withholding and character of such distributions (*e.g.*, as ordinary income or USRPI gain), would vary depending upon the extent of the foreign shareholder's current and past ownership of the Fund. On and after January 1, 2012, this "look-through" USRPI treatment for distributions by the Fund, if it were either a USRPHC or would be a USRPHC but for the operation of the exceptions referred to above, to foreign shareholders applies only to those distributions that, in turn, are attributable to distributions received by the Fund from a lower-tier REIT, unless Congress enacts legislation providing otherwise.

In addition, if the Fund is a USRPHC or former USRPHC, it could be required to withhold U.S. tax on the proceeds of a share redemption by a greater-than-5% foreign shareholder, in which case such foreign shareholder generally would also be required to file U.S. tax returns and pay any additional taxes due in connection with the redemption.

Whether or not the Fund is characterized as a USRPHC will depend upon the nature and mix of the Fund's assets. The Fund does not expect to be a USRPHC. Foreign shareholders should consult their tax advisors concerning the application of these rules to their investment in the Fund.

If a beneficial holder of Fund Shares who is a foreign shareholder has a trade or business in the United States, and the dividends are effectively connected with the beneficial holder's conduct of that trade or business, the dividend will be subject to U.S. federal net income taxation at regular income tax rates.

If a beneficial holder of Fund Shares who is a foreign shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by that beneficial holder in the United States.

To qualify for any exemptions from withholding described above or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a foreign shareholder must comply with special certification and filing requirements relating to its non-US status (including, in general, furnishing an IRS Form W-8BEN or substitute form). Foreign shareholders in the Fund should consult their tax advisers in this regard.

A beneficial holder of Fund Shares who is a foreign shareholder may be subject to state and local tax and to the U.S. federal estate tax in addition to the federal tax on income referred to above.

Backup Withholding. The Fund generally is required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Fund with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify to the Fund that he or she is not subject to such withholding. The backup withholding tax rate is currently 24%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss with respect to the Fund's shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all regulated investment companies. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Shareholder Reporting Obligations With Respect to Foreign Financial Assets. Certain individuals (and, if provided in future guidance, certain domestic entities) must disclose annually their interests in "specified foreign financial assets" on IRS Form 8938, which must be attached to their U.S. federal income tax returns for taxable years beginning after March 18, 2010. The IRS has not yet released a copy of the Form 8938 and has suspended the requirement to attach Form 8938 for any taxable year for which an income tax return is filed before the release of Form 8938. Following Form 8938's release, individuals will be required to attach to their next income tax return required to be filed with the IRS a Form 8938 for each taxable year for which the filing of Form 8938 was suspended. Until the IRS provides more details regarding this reporting requirement, including in Form 8938 itself and related Treasury regulations, it remains unclear under what circumstances, if any, a shareholder's (indirect) interest in the Fund's "specified foreign financial assets," if any, will be required to be reported on this Form 8938.

Other Reporting and Withholding Requirements. Rules enacted in March 2010 require the reporting to the IRS of direct and indirect ownership of foreign financial accounts and foreign entities by U.S. persons. Failure to provide this required information can result in a 30% withholding tax on certain payments ("withholdable payments") made after December 31, 2013. Specifically, withholdable payments subject to this 30% withholding tax include payments of U.S.-source

dividends and interest made on or after January 1, 2014, and payments of gross proceeds from the sale or other disposal of property that can produce U.S.-source dividends or interest made on or after January 1, 2015.

The IRS has issued only very preliminary guidance with respect to these new rules; their scope remains unclear and potentially subject to material change. Very generally, it is possible that distributions made by the Fund after the dates noted above (or such later dates as may be provided in future guidance) to a shareholder, including a distribution in redemption of shares and a distribution of income or gains otherwise exempt from withholding under the rules applicable to non-U.S. shareholders described above (e.g., Capital Gain Dividends, Short-Term Capital Gain Dividends and interest-related dividends, as described above) will be subject to the new 30% withholding requirement. Payments to a foreign shareholder that is a “foreign financial institution” will generally be subject to withholding, unless such shareholder enters into a timely agreement with the IRS. Payments to shareholders that are U.S. persons or foreign individuals will generally not be subject to withholding, so long as such shareholders provide the Fund with such certifications or other documentation, including, to the extent required, with regard to such shareholders’ direct and indirect owners, as the Fund require to comply with the new rules. Persons investing in the Fund through an intermediary should contact their intermediary regarding the application of the new reporting and withholding regime to their investments in the Fund.

Shareholders are urged to consult a tax advisor regarding this new reporting and withholding regime, in light of their particular circumstances.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their tax advisers to determine the suitability of shares of the Fund as an investment through such plans, and the precise effect of an investment on their particular tax situation.

FATCA. Payments to a shareholder that is either a foreign financial institution (“FFI”) or a non-financial foreign entity (“NFFE”) within the meaning of the Foreign Account Tax Compliance Act (“FATCA”) may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by the Fund after June 30, 2014 and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund after December 31, 2016. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. The Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

At the time this SAI was prepared, there were various legislative proposals under consideration that would amend the Internal Revenue Code. At this time, though, it is not possible to determine whether any of these proposals will become law and how these changes might affect the Fund or its shareholders.

The foregoing is a general and abbreviated summary of the provisions of the Internal Revenue Code and the Treasury regulations in effect as they directly govern the taxation of the Fund and its shareholders. These provisions are subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their tax advisers

regarding specific questions as to U.S. federal income, estate or gift taxes, or foreign, state, local taxes or other taxes.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Brokerage Transactions. Generally, equity securities are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In selecting brokers and dealers to execute portfolio transactions, the Adviser or the Sub-Adviser may consider research and brokerage services furnished to the Adviser, the Sub-Adviser or their affiliates. The Adviser or the Sub-Adviser may not consider sales of shares of the Fund as a factor in the selection of brokers and dealers, but may place portfolio transactions with brokers and dealers that promote or sell the Fund's shares so long as such transactions are done in accordance with the policies and procedures established by the Trustees that are designed to ensure that the selection is based on the quality of execution and not on sales efforts. When placing portfolio transactions with a broker or dealer, the Adviser or the Sub-Adviser may aggregate securities to be sold or purchased for the Fund with those to be sold or purchased for other advisory accounts managed by the Adviser or the Sub-Adviser. In aggregating such securities, the Adviser or the Sub-Adviser will average the transaction as to price and will allocate available investments in a manner that the Adviser or the Sub-Adviser believes to be fair and reasonable to the Fund and such other advisory accounts. An aggregated order will generally be allocated on a pro rata basis among all participating accounts, based on the relative dollar values of the participating accounts, or using any other method deemed to be fair to the participating accounts, with any exceptions to such methods involving the Trust being reported to the Trustees.

Section 28(e) of the Securities Exchange Act of 1934 (the "1934 Act") permits the Adviser or the Sub-Adviser, under certain circumstances, to cause the Fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser or the Sub-Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, Fund strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). In the case of research services, the Adviser believes that access to independent investment research is beneficial to its investment decision-making processes and, therefore, to the Fund.

To the extent that research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic, or institutional areas and information which assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser or the Sub-Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and

appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser or the Sub-Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser or the Sub-Adviser will be in addition to and not in lieu of the services required to be performed by the Adviser or the Sub-Adviser under their respective advisory agreements. Any advisory or other fees paid to the Adviser or the Sub-Adviser are not reduced as a result of the receipt of research services.

In some cases the Adviser or the Sub-Adviser may receive a service from a broker that has both a "research" and a "non-research" use. When this occurs, the Adviser or the Sub-Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser or the Sub-Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser or the Sub-Adviser faces a potential conflict of interest, but the Adviser or the Sub-Adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

From time to time, the Fund may purchase new issues of securities in a fixed price offering. In these situations, the seller may be a member of the selling group that will, in addition to selling securities, provide the Adviser or the Sub-Adviser with research services. FINRA has adopted rules expressly permitting these types of arrangements under certain circumstances. Generally, the seller will provide research "credits" in these situations at a rate that is higher than that which is available for typical secondary market transactions. These arrangements may not fall within the safe harbor of Section 28(e).

Brokerage with Fund Affiliates. The Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund or the Adviser or the Sub-Adviser for a commission in conformity with the 1940 Act, the 1934 Act and rules promulgated by the SEC. These rules further require that commissions paid to the affiliate by the Fund for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts which are "reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time." The Trustees, including those who are not "interested persons" of the Fund, have adopted procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically.

Securities of "Regular Broker-Dealers". The Fund is required to identify any securities of its "regular brokers and dealers" (as such term is defined in the 1940 Act) which the Fund may hold at the close of its most recent fiscal year. The Fund is newly formed and has not commenced operations as of the date of this SAI.

DISCLOSURE OF PORTFOLIO SECURITIES HOLDINGS

On each Business Day (as defined in the Creation and Redemption of Creation Units section of this SAI), prior to the opening of regular trading on the Fund's primary listing exchange, the Fund disclose on their website (www.kingsbarncapital.com) certain information relating to the portfolio holdings that will form the basis of the Fund's next NAV per share calculation.

In addition, certain information may also be made available to certain parties:

- **Communications of Data Files:** The Fund may make available through the facilities of the National Securities Clearing Corporation (“NSCC”) or through posting on the Fund’s website, prior to the opening of trading on each business day, a list of the Fund’s holdings (generally pro-rata) that Authorized Participants could deliver to the Fund to settle purchases of the Fund (i.e. Deposit Securities) or that Authorized Participants would receive from the Fund to settle redemptions of the Fund (i.e. Fund Securities). These files are known as the Portfolio Composition Files and the Fund Data Files (collectively, “Files”). The Files are applicable for the next trading day and are provided to the NSCC and/or posted on the Fund’s website after the close of markets in the U.S.
- **Communications with Authorized Participants and Liquidity Providers:** Certain employees of the Adviser, Sub-Adviser, Distributor and Custodian are responsible for interacting with Authorized Participants and liquidity providers with respect to discussing custom basket proposals as described in the Custom Baskets section of this SAI. As part of these discussions, these employees may discuss with an Authorized Participant or liquidity provider the securities the Fund is willing to accept for a creation, and securities that the Fund will provide on a redemption.
- **The Adviser and/or Sub-Adviser may also discuss portfolio holdings-related information with broker/dealers, in connection with settling the Fund’s transactions, as may be necessary to conduct business in the ordinary course in a manner consistent with the disclosure in the Fund’s current registration statement.**
- **Communications with Listing Exchanges:** From time to time, employees of the Adviser, Sub-Adviser, Distributor and/or Custodian may discuss portfolio holdings information with the applicable primary listing exchange for the Fund as needed to meet the exchange listing standards.
- **Communication of Other Information:** Certain explanatory information regarding the Files is released to Authorized Participants and liquidity providers on a daily basis, but is only done so after the Files are posted to the Fund’s website.
- **Third-Party Service Providers:** Certain portfolio holdings information may be disclosed to the Trustees and their counsel, outside counsel for the Fund, auditors and to certain third-party service providers (i.e., fund administrator, custodian, proxy voting service, and printers), as may be necessary to conduct business in the ordinary course in a manner consistent with applicable policies, agreements with the Fund, the terms of the current registration statement and federal securities laws and regulations thereunder.
- **The Fund files its complete portfolio holdings schedule with the SEC on a quarterly basis. This schedule is filed with the Trust’s annual and semi-annual reports on Form N-CSR for the second and fourth fiscal quarters and on Form N-PORT for the first and third fiscal quarters. Certain portfolio information is also included on Form N-PORT that is filed for the second and fourth fiscal quarters. The portfolio holdings information provided in these reports is as of the end of the respective quarter. Form N-CSR must be filed with the SEC no later than ten (10) calendar days after the Trust transmits its annual or semi-annual report to its shareholders. Form N-PORT must be filed with the SEC and will be made publicly available no later than sixty (60) calendar days after the end of the applicable quarter.**

No consideration may be received by the Fund, the Adviser, or any other person in connection with the disclosure of portfolio information. The Trust's Chief Compliance Officer or his delegate may authorize disclosure of portfolio holdings information pursuant to the above policy and procedures, subject to restrictions on selective disclosure imposed by applicable law. The Board reviews the policy and procedures for disclosure of portfolio holdings information at least annually.

DESCRIPTION OF SHARES

The Trust's Agreement and Declaration of Trust authorizes the Board to issue an unlimited number of full and fractional shares of beneficial interest in the Trust and to classify or reclassify any unissued shares into one or more series of shares. The Agreement and Declaration of Trust further authorizes the trustees to classify or reclassify any series of shares into one or more classes. The Trust's shares of beneficial interest have no par value.

The Fund is authorized to issue one class of shares imposing no front-end or deferred sales charges, no 12b-1 fee and no service fee.

Shares have no preemptive rights and only such conversion or exchange rights as the Board may grant in its discretion. When issued for payment as described in the applicable prospectus, shares will be fully paid and non-assessable. In the event of a liquidation or dissolution of the Trust or an individual fund, shareholders of a fund are entitled to receive the assets available for distribution belonging to the particular fund, and a proportionate distribution, based upon the relative asset values of the respective fund, of any general assets of the Trust not belonging to any particular fund which are available for distribution.

Shareholders are entitled to one vote for each full share held, and a proportionate fractional vote for each fractional share held and will vote in the aggregate and not by class, except as otherwise expressly required by law or when the Board determines that the matter to be voted on affects only the interests of shareholders of a particular class. Voting rights are not cumulative and, accordingly, the holders of more than 50% of the aggregate of the Trust's outstanding shares may elect all of the trustees, irrespective of the votes of other shareholders.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted to the holders of the outstanding voting securities of an investment company such as the Trust shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each fund affected by the matter. A particular fund is deemed to be affected by a matter unless it is clear that the interests of each fund in the matter are substantially identical or that the matter does not affect any interest of the fund. Under the Rule, the approval of an investment management agreement or any change in an investment objective, if fundamental, or in a fundamental investment policy would be effectively acted upon with respect to a fund only if approved by a majority of the outstanding shares of such fund. However, the Rule also provides that the ratification of the appointment of independent public accountants, the approval of principal underwriting contracts and the election of trustees may be effectively acted upon by shareholders of the Trust voting without regard to series or class.

The Trust does not presently intend to hold annual meetings of shareholders except as required by the 1940 Act or other applicable law. Upon the written request of shareholders owning at least 25% of the Trust's shares, the Trust will call for a meeting of shareholders to consider the removal of one or more trustees and other certain matters. To the extent required by law, the Trust will assist in shareholder communication in such matters.

The Board has full power and authority, in its sole discretion, and without obtaining shareholder approval, to divide or combine the shares of any class or series thereof into a greater or lesser number, to classify or reclassify any issued shares or any class or series thereof into one or more classes or series of shares, and to take such other action with respect to the Trust's shares as the Board may deem desirable. The Agreement and Declaration of Trust authorizes the Trustees, without shareholder approval, to cause the Trust to merge or to consolidate with any corporation, association, trust or other organization in order to change the form of organization and/or domicile of the Trust or to sell or exchange all or substantially all of the assets of the Trust, or any series or class thereof, in dissolution of the Trust, or any series or class thereof. The Agreement and Declaration of Trust permits the termination of the Trust or of any series or class of the Trust by the Trustees without shareholder approval. However, the exercise of such authority by the Board without shareholder approval may be subject to certain restrictions or limitations under the 1940 Act.

PROXY VOTING

The Board of Trustees of the Trust has delegated responsibility for decisions regarding proxy voting for securities held by the Fund to the Adviser. The Adviser will vote such proxies in accordance with its proxy voting policies and procedures, which are included in Exhibit B to this SAI. The Board of Trustees will periodically review the Fund's proxy voting record. The proxy voting policies and procedures of the Trust are included as Exhibit A to this SAI.

The Trust is required to disclose annually the Fund's complete proxy voting record on Form N-PX. Any material changes to the proxy policies and procedures will be submitted to the Board for approval. Information regarding how the Fund voted proxies relating to portfolio securities for the most recent 12-month period ending June 30, will be available (1) without charge, upon request by calling 866-788-7878 or by writing to the Fund at 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235; and (2) on the SEC's Internet website at <http://www.sec.gov>.

CODES OF ETHICS

The Board of Trustees, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. In addition, the Adviser and the Sub-Adviser have each adopted a Code of Ethics pursuant to Rule 17j-1. These Codes of Ethics apply to the personal investing activities of trustees, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Fund. In addition, certain access persons are required to obtain approval before investing in initial public offerings or private placements, or are prohibited from making such investments. Copies of these Codes of Ethics are on file with the SEC, and are available to the public on the EDGAR Database on the SEC's Internet website at <http://www.sec.gov>.

FINANCIAL INFORMATION

The Fund is new and does not have audited financial statements at this time. Upon completion of the Fund's first fiscal period/year, audited financial statements will become available.

EXHIBIT A

ETF OPPORTUNITIES TRUST

PROXY VOTING POLICY AND PROCEDURES

The ETF Opportunities Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

Delegation of Proxy Voting Authority to Fund Advisers

The Board believes that the investment adviser, or the investment sub-adviser as appropriate, of each Fund (each an “Adviser”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Adviser of each Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Adviser of each Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, each Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Adviser shall perform these duties in accordance with the Adviser’s proxy voting policy, a copy of which shall be presented to this Board for its review. Each Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of a Fund’s shareholders and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund’s vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser’s proxy voting policy, to the extent consistent with the shareholders’ best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board’s decision.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

If a Fund has a website, the Fund may post a copy of its Adviser's proxy voting policy and this Policy on such website. A copy of such policies and of each Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

Each Adviser shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 30 days following the end of each 12-month period ending June 30. The Trust's administrator will file a report based on such record on Form N-PX on an annual basis with the U.S. Securities and Exchange Commission no later than August 31st of each year.

Adopted: December 4, 2019

EXHIBIT B

PROXY VOTING POLICY AND PROCEDURES

Kingsbarn Capital Management, LLC

PROXY VOTING POLICY AND PROCEDURES

Rule 206(4)-6 and rule amendments under the Investment Advisers Act of 1940 (the “Act”) address an investment advisor’s fiduciary obligation to its Clients when the adviser has authority to vote their proxies.

Statement of Policy

Kingsbarn Capital Management (KCM) as a matter of policy and practice has no authority to vote proxies on behalf of its advisory Clients, except KCM’s in which KCM serves as investment advisor. KCM may offer assistance as to proxy matters upon a Client’s request, but the Client always retains the proxy voting responsibility. (The policy with respect to voting proxies for its Exchange Traded Fund Clients is described below.)

KCM discloses its proxy voting policy in its Disclosure Document/s. Moreover, KCM’s advisory agreements provide that it has no proxy voting responsibilities and that the advisory Clients expressly retain such voting authority. KCM’s new Client information materials may also indicate that the advisory Clients retain proxy voting authority.

Clients may obtain a copy of KCM’s proxy voting policies and procedures upon their request.

Exchange Traded Fund Clients

KCM will generally vote proxies for KCM in which KCM serves as the investment advisor unless required by applicable legal, regulatory or contractual requirements to pass such vote to the fund shareholders.

KCM will generally vote proxies in accordance with management recommendations as described below. KCM reserves the right to deviate from the general provisions contained within any part of this policy, and to vote against any issue regardless of the nature of the issue, if by doing so we protect the fund shareholders’ interest and value. In the event of such deviation, documentation regarding such vote will be maintained in KCM’s books and records.

➤ **Routine Matters**

On routine matters, KCM will support management and vote in accordance with the following:

- In analyzing directors and boards, the policy we follow generally supports the election of incumbent and newly appointed directors except when a majority of the company’s directors are not independent or where a director fails to attend at least 75% of board and committee meetings. In a contested election we will vote in accordance with what we feel is in the best interests of shareholders.

- Our policy will support auditor ratification;
- We generally support management proposals on executive compensation including equity compensation plans, allowing management and board discretion to design and implement effective compensation programs. However, recognizing that at some point the dilutive effect of equity compensation plans can negatively affect overall shareholder returns, the guidelines will vote against plans that would result in total overhang greater than 25%. Similarly, our guidelines will support management advisory votes on compensation and will vote in favor of executive compensation arrangements in connection with merger transactions with the belief that an independent compensation committee is in the best position to design an appropriate compensation program for the company. Further, we follow management's recommendation for proposals on the frequency of such advisory votes;
- We recognize that having sufficient available authorized common and preferred shares allows companies flexibility to take advantage of rapidly developing opportunities as well as to effectively operate the business. Therefore, we will support proposals to increase both common and preferred shares;
- We will generally support proposals relating to treatment of shareholders and changes to corporate structure except for management proposals to classify the board of directors which we will vote against to preserve director accountability;
- We will undertake a thorough examination of the economic implications of a proposed merger or acquisition to determine the transaction's likelihood of maximizing shareholder return. We will examine the process used to negotiate the transaction as well as the terms of the transaction in making the vote recommendation. We will vote in accordance with our belief in what is in the best interests of shareholders on mergers, acquisitions, and other financing transactions; and
- We will vote against shareholder proposals not supported by management, thereby allowing management and the board discretion to address issues generally raised by shareholder proponents, including those relating to governance, compensation, environmental, and social issues.

➤ **Voting Procedures**

Proxy statements are to be reviewed and voted by the Exchange Traded Fund's portfolio manager/s or another designated person. A record will be made and maintained of all votes. KCM reserves the right to vote contrary to its stated policy if it believes in its sole opinion that to do so would be in the best interests of its Clients and fund shareholders.

KCM may abstain from voting a proxy if it concludes that the effect on the Exchange Traded Fund shareholders' economic interests or the value of the portfolio holding is indeterminable or insignificant. KCM may also abstain from voting if it concludes the cost of voting is disproportionate to the economic impact the vote would have on the portfolio holdings. A record of reasons for any such abstention by KCM will be maintained.

➤ **Conflicts of Interest**

Any conflict of interest will be resolved in the best interests of the Exchange Traded Fund's shareholders. In the event that a material conflict of interest is identified or believed to exist, KCM will review such conflict with its Chief Compliance Officer and the Exchange Traded Fund's proxy voting policies and procedures.

KCM shall also maintain record of any conflicts of interest that were identified with any specific vote, and if so, what action was taken to resolve the conflict with respect to each vote cast.

➤ **Proxy Vote Record Retention**

KCM shall maintain records of proxies voted in accordance with Section 204-2 of the Act, including proxy statements, and a record of each vote cast. KCM shall also keep a copy of its policies and procedures and each written request from a Client for proxy voting records and KCM's written response to any Client request, either written or oral, for such records. All proxy voting records are to be retained for five years, with the first two years in the offices of KCM.

➤ **Form N-PX Filing**

KCM shall be responsible for ensuring that it maintains a complete proxy vote log and confirms the timely voting of proxies. The proxy vote log will be maintained in such a manner that the following information is contained within the log in accordance with the requirements of submitting Form N-PX for proxies voted on behalf of KCM's Exchange Traded Fund(s) Clients:

- the name of the issuer;
- the exchange ticker symbol, if available;
- the CUSIP number, if available;
- the shareholder meeting date;
- a brief identification of the matter voted on;
- whether the matter was proposed by the issuer or a security holder;
- whether KCM cast its vote on the matter;
- how KCM cast its vote on the matter (for, against, abstain, or withhold regarding the election of directors); and
- whether KCM cast its vote for or against management.

KCM shall provide the information necessary to complete the Form N-PX to the appropriate fund service provider/administrator who will timely submit the filings, generally prior to August 31 for the 12-month period ended June 30 each year.

Adopted: November 8, 2021

EXHIBIT C

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE CHARTER ETF OPPORTUNITIES TRUST

Nominating and Corporate Governance Committee Membership

1. The Nominating and Corporate Governance Committee of ETF Opportunities Trust (the “Trust”) shall be composed entirely of Independent Trustees.

Board Nominations and Functions

1. The Committee shall make nominations for Trustee membership on the Board of Trustees, including the Independent Trustees. The Committee shall evaluate candidates’ qualifications for Board membership and their independence from the investment advisers to the Trust’s series portfolios and the Trust’s other principal service providers. Persons selected as Independent Trustees must not be an “interested person” as that term is defined in the Investment Company Act of 1940, nor shall Independent Trustees have any affiliations or associations that shall preclude them from voting as an Independent Trustee on matters involving approvals and continuations of Rule 12b-1 Plans, Investment Advisory Agreements and such other standards as the Committee shall deem appropriate. The Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, *e.g.*, business, financial or family relationships with managers or service providers. See Appendix A for Procedures with Respect to Nominees to the Board.
2. The Committee shall periodically review Board governance procedures and shall recommend any appropriate changes to the full Board of Trustees.
3. The Committee shall periodically review the composition of the Board of Trustees to determine whether it may be appropriate to add individuals with different backgrounds or skill sets from those already on the Board.
4. The Committee shall periodically review trustee compensation and shall recommend any appropriate changes to the Independent Trustees as a group.

Committee Nominations and Functions

1. The Committee shall make nominations for membership on all committees and shall review committee assignments at least annually.
2. The Committee shall review, as necessary, the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees of the Board, and whether committees should be combined or reorganized. The Committee shall make recommendations for any such action to the full Board.

Other Powers and Responsibilities

1. The Committee shall have the resources and authority appropriate to discharge its responsibilities, including authority to retain special counsel and other experts or consultants at the expense of the Trust.
2. The Committee shall review this Charter at least annually and recommend any changes to the full Board of Trustees.

Adopted: December 4, 2019

**APPENDIX A TO THE NOMINATING AND CORPORATE GOVERNANCE
COMMITTEE CHARTER**

ETF OPPORTUNITIES TRUST

PROCEDURES WITH RESPECT TO NOMINEES TO THE BOARD

- I. *Identification of Candidates.* When a vacancy on the Board of Trustees exists or is anticipated, and such vacancy is to be filled by an Independent Trustee, the Nominating and Corporate Governance Committee shall identify candidates by obtaining referrals from such sources as it may deem appropriate, which may include current Trustees, management of the Trust, counsel and other advisors to the Trustees, and shareholders of the Trust who submit recommendations in accordance with these procedures. In no event shall the Nominating and Corporate Governance Committee consider as a candidate to fill any such vacancy an individual recommended by any investment adviser of any series portfolio of the Trust, unless the Nominating and Corporate Governance Committee has invited management to make such a recommendation.

- II. *Shareholder Candidates.* The Nominating and Corporate Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder if such recommendation contains: (i) sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner as determined by the Nominating and Corporate Governance Committee in its discretion. Shareholders shall be directed to address any such recommendations in writing to the attention of the Nominating and Corporate Governance Committee, c/o the Secretary of the Trust. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.

- III. *Evaluation of Candidates.* In evaluating a candidate for a position on the Board of Trustees, including any candidate recommended by shareholders of the Trust, the Nominating and Corporate Governance Committee shall consider the following: (i) the candidate's knowledge in matters relating to the mutual fund industry; (ii) any experience possessed by the candidate as a director or senior officer of public companies; (iii) the candidate's educational background; (iv) the candidate's reputation for high ethical standards and professional integrity; (v) any specific financial, technical or other expertise possessed by the candidate, and the extent to which such expertise would complement the Board's existing mix of skills, core competencies and qualifications; (vi) the candidate's perceived ability to contribute to the ongoing functions of the Board, including the candidate's ability and commitment to attend meetings regularly and work collaboratively with other members of the Board; (vii) the candidate's ability to qualify as an Independent Trustee and any other actual or potential conflicts of interest involving the candidate and the Trust; and (viii) such other factors as the Nominating and Corporate Governance Committee determines to be relevant in light of the existing composition of the Board and any anticipated vacancies. Prior to making a final recommendation to the Board, the Nominating and Corporate Governance Committee shall conduct personal interviews with those candidates it concludes are the most qualified candidates.
